NOTICE TO MARINERS.

GOVERNMENT RIFLE RANGES, MCNAB'S ISLAND.

Owing to the extreme range of the Lee-Metford or Magazine Rifle, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

This area has been marked by four spar buoys, placed at intervals between the Thrum Cap Shoal and the Eastern Passage, at a distance of 3000 yards from the stop butts. The buoys mark the extreme limits of the danger zone. The spars are painted red, and are surmounted by cross heads painted red and white.

Notice is therefore hereby given that any ship or boat passing inside these buoys, during the hours of practice, incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab's Island is left flying.

This notice will have effect from the 10th May, 1903.

By order,

A. J. ERSKINE,
Lt.-Colonel, Chief Staff Officer.

(44) SOUTH COAST—HALIFAX HARBOUR—SAILING DIRECTIONS FOR RANGE LIGHTS.

The four lights hereinbefore described will form two ranges to guide up Halifax harbour. Mauger beach light in one with McNab island light, forming the outer range, and George island light in one with Darmouth light, both buildings marked with black diamonds on white grounds, forming the inner range.

Outer range.—Vessels of deep draught wishing to enter Halifax harbour by the deepest water channel, after passing inside of Chebucto head light, will haul up on a N. 16° E. course when they bring Mauger beach flashing white light and McNab island fixed white light in one. This course, which passes about midway between Lichfield and Neverfail shoals, and well clear of Mars rock, giving each a berth of about 3½ cables, is to be continued until this alignment is intersected by the

Inner range, which brings George island revolving red light and Dartmouth fixed red light in one, bearing N. 1° E., when the ship's course is to be changed to this new alignment. Following this course, vessels will pass on the eastern side of and well clear of the Middle ground and Pleasant shoal.

Coming in on these two ranges, vessels will leave the gas buoy off Neverfail shoal on the starboard hand, and the gas buoy off the Middle ground on the port hand.

Vessels of ordinary or light draught entering the harbour on the eastern side of Rock head shoal, or going up mid-channel between Portuguese and Neverfail shoals, need pay no attention to McNab island light, as it is intended for the use of large vessels entering by the western channel only.

Mardi, le 31e jour de mars 1903.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que l'article 41 des règlements relatifs aux mines alluviales dans le territoire du Yukon, établis par l'arrêté en conseil du 13 de mars 1901, statue que tout mineur libre ayant dûment délimité et enregistré un emplacement aura droit de le détenir pendant la période pour laquelle il a reçu une inscription, et ensuite d'année en année en renouvelant l'enregistrement ; pourvu, toutefois, que durant chaque année, et chaque année ensuivante, ce mineur libre exploite ou fasse exploiter l'emplacement même pour une valeur de deux cents piastres, ou il peut, à son choix, au lieu du travail exigé chaque année, payer au régistrateur des mines dans le bureau duquel l'emplacement est enregistré, la somme de deux cents piastres pour chacune des trois premières années, mais pour la quatrième et les années ensuivantes la somme de quatre cents piastres doit être payée au lieu du travail qui devrait être fait sur l'emplacement ou s'y rattachant ;

Et considérant que le commissaire du territoire du Yukon fait rapport qu'il serait avantageux au public si la somme de travail à faire chaque année sur un

emplacement minier ne pouvait être commué par le paiement d'un droit au lieu du travail,—

A ces causes, il plaît au Gouverneur général en conseil, en vertu de la clause 47 de l'*Acte des terres fédérales*, telle que statuée par l'article 5 de l'acte 55-56 Victoria, chapitre 15, et de l'article 8 de l'*Acte du territoire du Yukon*, tel que statué par l'article 3 de l'acte 2 Edouard VII, chapitre 34, d'ordonner et il est par le présent ordonné, que les dispositions contenues dans les divers sous-articles de l'article 41 des règlements établis par un arrêté en conseil du 13 de mars 1901, permettant, au choix du mineur libre, de faire un paiement au lieu du travail obligatoire, soient rescindées à compter du premier jour d'août 1903.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que l'article 6 des règlements concernant l'émission de baux pour draguer des minéraux dans les lits des rivières dans le territoire du Yukon, établis par l'arrêté en conseil du 18 de janvier 1898, établit que les locataires paieront à la Couronne un droit régalien de dix pour cent sur le rendement lorsqu'il excède $15,000, tel que démontré par les états assermentés que fournira mensuellement le locataire au commissaire des mines d'or pendant la saison d'opérations ; le dit droit régalien sera payé en même temps que chaque rapport.

Et considérant qu'à l'époque où ces règlements ont été approuvés le droit régalien sur l'or extrait en vertu des dispositions des règlements concernant les mines alluviales était de 10 pour cent du rendement brut, mais que depuis lors il a été réduit à 2½ pour cent sur la valeur de l'or exporté sans exemption,—

A ces causes, il plaît au Gouverneur général en conseil, en vertu des dispositions de la clause 7 de l'*Acte des terres fédérales*, telle que modifiée par l'article 5 du chapitre 15 de 55–56 Victoria, et de l'article 8 de l'*Acte du territoire du Yukon*, tel que modifié par l'article 3 du chapitre 34 de 2 Edouard VII, d'ordonner que la partie de l'article 6 des règlements concernant l'émission de baux pour draguer des minéraux dans les rivières du territoire du Yukon, ci-dessus cités, et aussi l'article 6*a* des dits règlements, soient et ils sont par le présent rescindés, et remplacés par ce qui suit :—

" Le même droit régalien sera payé sur le rendement de l'or, tel que prescrit, ou sera ci-après prescrit, dans le cas de concessions de mines alluviales, ce droit régalien devant être payé en la manière établie par les règlements concernant les mines alluviales.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que l'article 2 des règlements relatifs aux mines alluviales dans le territoire du Yukon établis par l'arrêté en conseil du 13 de mars 1901, établit que pour un certificat de mineur titre délivré en faveur d'un particulier l'honoraire sera de $10, et les articles 29 et 34 des règlements en question pourvoient au paiement d'un honoraire de $15 pour l'enregistrement une concession de mine alluviale, et le paiement d'un pareil montant pour son renouvellement chaque année ;

Et considérant que le commissaire du territoire du Yukon recommande que le droit payable pour un certificat de mineur libre soit réduit à $7.50, et que l'honoraire pour la concession ou le renouvellement d'une concession de mine alluviale soit réduit à $10,—

A ces causes, il plaît au Gouverneur général en conseil, en vertu de l'article 47 de l'*Acte des terres fédérales*, tel que modifié par l'article 5 de l'acte chapitre 15 de 55–56 Victoria, et de l'article 8 de l'*Acte du territoire du Yukon*, tel que modifié par l'article 3 de l'acte chapitre 34 de 2 Edouard VII, d'ordonner que l'article 2 des règlements établis par l'arrêté en conseil du 13 de mars 1901 précité, soit et il est par le présent modifié en retranchant l'honoraire de $10 qui y est stipulé pour un certificat de mineur titre délivré à un particulier, et y substituant $7.50 ; et que les articles 29 et 34 des dits règlements soient et ils sont par le présent modifiés, en substituant le droit de $10 pour enregistrement ou pour le renouvellement d'une concession de mine alluviale au droit de $15 aujourd'hui exigé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 3e jour de février 1903.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît au Gouverneur général en conseil, en conformité des dispositions du sous-article 1 de l'article 19 de l'*Acte des terres fédérales*, chapitre 54 des Statuts Revisés du Canada, d'ordonner que les taux fixés par des arrêtés en conseil antérieurs pour l'arpentage de subdivisions de townships, soient et ils sont par le présent rescindés, et que les arpentages de subdivisions de townships faits à l'entreprise, seront dorénavant payés comme ci-après :—

1. Les lignes de sections seront payées au taux de cinq piastres par mille de ligne arpentée.

2. Un paiement supplémentaire au taux de cinquante centins par chaîne, jusqu'à dix chaînes dans un côté de section, sera fait pour ouvrir, couper et marquer une ligne à travers bois, vents chablis, broussailles ou épais fourrés.

3. Toute ouverture, coupe et marquage de la ligne au delà de dix chaînes dans un côté de section sera payée au taux de vingt-cinq centins par chaîne.

4. Aucun paiement ne sera fait en vertu des articles 2 et 3 lorsque la ligne aurait pû être mesurée sans faire d'ouverture ou de coupe.

5. La partie d'une ligne mesurée en travers de l'eau au moyen d'une triangulation, jusqu'à un demi-mille, sera payée comme ouverture à travers bois lorsque la masse d'eau est entourée de bois continus.

6. Pour l'interprétation des articles 2 et 3, une ligne de section signifiera la distance entre deux monuments aux encoignures de sections ou les endroits assignés à ces encoignures, et cette distance pourra comprendre une réserve de chemin.

7. Lorsque le côté d'une section, à part de la réserve de chemin est plus grand que quatre-vingt-dix chaînes, ou moindre que soixante-dix chaînes, le nombre de chaînes d'ouverture ou de coupe qui peut être payé au taux de cinquante centins par chaîne, sera augmenté ou réduit en proportion de la longueur du côté de section.

8. Seules les lignes actuellement tracées et marquées sur le terrain seront payées. Rien ne sera alloué pour les lignes perdues ou de sentiers, les bases de triangles et les ordonnées.

9. Un paiement supplémentaire au taux de trois piastres par mille sera fait pour les lignes de sections arpentées sur un terrain accidenté ou montagneux. Un côté de section sera réputé accidenté ou montagneux lorsque le carnet de campagne indique qu'il franchit un ravin d'au moins 100 pieds de profondeur ou deux ravins chacun d'au moins 50 pieds de profondeur, ou que la différence de niveau entre deux points de la ligne à pas plus d'un demi-mille de distance l'un de l'autre, excède 200 pieds, les profondeurs ou hauteurs étant mesurées par un baromètre anéroïde.

10. Un paiement supplémentaire au taux de quatre piastres par mille sera fait pour arpenter les lignes extérieures méridiennes d'un township lorsque ces lignes extérieures sont comprises dans un contrat d'arpentage de subdivision.

11. Les lignes de sections réarpentées ou retracées seront payées au même taux que les lignes primitives de sections lorsque ces lignes sont réarpentées ou retracées en conformité du Manuel d'arpentage ou des instructions de l'Arpenteur général, mais rien ne sera payé pour le mesurage d'une partie des lignes extérieures que le Manuel d'arpentage oblige de faire pour éprouver le chaînage avant de commencer la subdivision d'un township.

12. Un paiement supplémentaire au taux de vingt-cinq centins par fosse dans la prairie et de quarante centins par fosse dans les bois, sera fait pour chaque monument de borne, ce paiement devant couvrir le coût de planter et marquer les poteaux, construire le monticule, et autrement compléter le monument. Une tranchée-témoin sera payée comme quatre fosses.

13. Les traverses des lacs et rivières et les traverses correspondantes seront payées au taux de onze piastres par mille. Pour les traverses des lacs et rivières, la distance à payer sera mesurée le long de la rive du lac ou rivière à partir de chaque point fixé par l'arpentage dans une ligne droite jusqu'au point suivant. Il ne sera rien payé pour les ordonnées.

14. Une piastre sera payée pour chaque déclaration statutaire d'un colon.

15. Cinq piastres seront payées pour chaque observation astronomique (pas plus que deux observations dans un township) pour constater la direction du méridien.

16. Les indemnités ci-dessus couvriront le coût de la préparation et des rapports de l'arpentage.

17. Les poteaux en fer employés à l'arpentage seront fournis gratuitement à Winnipeg. Les poteaux qui n'ont pas servi devront être renvoyés aux magasins, sinon ils seront portés au compte de l'arpenteur au prix de quarante centins chacun.

18. Un rabais au taux que l'inspecteur des arpentages recommandera sera fait sur les paiements des entrepreneurs d'arpentage pour chaque monument d'arpentage non érigé en conformité des dispositions du Manuel d'arpentage, soit que le défaut existe dans la dimension des fosses, ou dans le marquage ou enfoncement des poteaux, mais ce rabais ne sera pas plus fort que trois fois le montant alloué pour ériger le monument. En payant pour les traverses, une piastre sera déduite pour chaque ordonnée moindre que ne le prescrit le Manuel d'arpentage.

41–4 Greffier du Conseil privé.

AVIS AUX NAVIGATEURS.

No. 24 de 1903.

(Avis de l'Atlantique No. 13.)

Tous les relèvements, à moins d'avis contraire, sont magnétiques et sont donnés venant de la mer, les milles sont des milles marins, les hauteurs sont au-dessus des hautes eaux, et toutes les profondeurs sont à l'eau basse moyenne.

QUÉBEC.

(50) FLEUVE SAINT-LAURENT—CONTRECŒUR—BALISES DE JOUR.

Deux tours de feux d'alignement, qui seront connues comme l'alignement de Verchères à Contrecœur, ont été érigées par le gouvernement du Canada dans le prolongement E. de l'axe du nouveau chenal dragué entre la traverse Verchères et la traverse Contrecœur. Le bout O. du même axe est marqué par les feux d'alignement du village de Contrecœur.

On ne se propose pas d'allumer des feux dans ces tours pour le présent, mais les tours servent aujourd'hui de balises de jour, et doivent être tenues l'une dans l'autre par les vaisseaux qui descendent, direction N. 54° 30' E., à partir du moment qu'ils quittent l'alignement de feux d'alignement de la traverse Verchères jusqu'à ce qu'ils atteignent l'alignement des feux d'alignement de la traverse Contrecœur.

La tour antérieure est carrée, en bois, avec côtés en pente, assise sur une haute pile en caissonnage construite dans un pied d'eau sur les battures de Contrecœur, rive sud du fleuve. Elle est à 4,350 pieds N. 42° O. de l'église du village de Contrecœur.

Lat. N. 45° 51′ 54″
Long. O. 73 15 23

La hauteur de la pile au-dessus du niveau d'été du fleuve est de 25 pieds. La hauteur de la tour depuis

la pile jusqu'au ventilateur sur le faîte du toit est de 13 pieds. La pile et la tour sont blanches. Le foyer du feu une fois établi sera à 31 pieds au-dessus du niveau d'été du fleuve.

La tour postérieure est carrée, avec côtés en pente, consistant en une charpente en acier, à jour, avec lattes sur la partie supérieure du côté qui fait face à l'alignement. La charpente d'acier est peinturée en brun, et les lattes sont blanches. La hauteur de la tour depuis la pile jusqu'au dessus du lattage est de 42 pieds. Cette tour n'a pas encore été surmontée d'une lanterne.

Le plancher de la pile est à 26 pieds au-dessus du niveau d'été du fleuve. Cette pile repose sur un îlet émergeant de la même batture sur laquelle repose la pile antérieure. Elle est à 9,250 pieds N. 54° 30′ E. de la tour antérieure.

(51) Fleuve Saint-Laurent—Chenal des navires en aval de Montréal—Varennes—Phare établi.

Un phare, établi par le gouvernement du Canada, dans le village de Varennes, sur la rive sud du fleuve Saint-Laurent en aval de Montréal, sera mis en fonctionnement à l'ouverture de la navigation au printemps de 1903.

Lat. N. 45° 41′ 11″
Long. O. 73 26 40

Le phare de Varennes repose sur le bord extérieur du grand chemin dans le village à 5,662 pieds N. 46° E. du phare d'alignement antérieur de l'Ile à l'Aigle, et à 265 pieds N. 78° O. du clocher nord de l'église du village de Varennes. Il est dans l'alignement du feu d'alignement postérieur de la Pointe aux Trembles (supprimé) et du feu d'alignement antérieur de l'Ile à l'Aigle.

Le phare consiste en une charpente d'acier, à jour, carrée, avec côtés en pente, surmontée d'une guérite en bois et d'une lanterne carrée en bois. Le côté de la charpente qui fait face au chenal est rendu plus apparent par un lattage en bois s'étendant jusqu'au bas de la guérite. La charpente d'acier est peinturée en rouge et la boiserie en blanc. Le bâtiment a 61 pieds de hauteur depuis le sol jusqu'à la girouette sur la lanterne.

Le feu sera blanc fixe, à 80 pieds au dessus du niveau d'été du fleuve, et devrait être visible à 4 milles dans l'alignement. L'appareil lumineux est catoptrique.

Ce feu, en conjonction avec le feu d'alignement antérieur sur l'Ile à l'Aigle décrit dans l'Avis aux Navigateurs No. 110 (361) de 1902, direction N. 46° E., forme un alignement qui sera appelé Alignement de la traverse Ile aux Vaches, et indique l'axe du chenal des navires dragué depuis le point où il quitte l'alignement des feux d'alignement supérieurs de l'Ile Ste-Thérèse jusqu'aux coude en bas du phare de l'Ile aux Vaches.

A compter de l'ouverture de la navigation au printemps de 1903, les feux d'alignement dans le village de la Pointe aux Trembles, qui jusqu'aujourd'hui marquaient le chenal des navires dans la traverse Ile aux Vaches, bien qu'ils n'étaient pas dans l'axe de ce chenal, seront permanemment supprimés, ayant été remplacés, par les feux d'alignement de la traverse Ile aux Vaches, ci-dessus décrits.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

ORDRE PERMANENT.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées

ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression :

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

THOMAS B. FLINT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

THOMAS B. FLINT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 5th day of May, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it has been represented that very considerable benefit to the fisheries of Lakes St. Louis and St. Francis, resulted from the Order in Council of the 27th May, 1901 ; and it has been further represented that a continuance of the prohibition would materially augment the beneficial results, but the hardship from its effects would be removed from certain fishermen of the Parish of Chateauguay if a portion of the Lake in front of that parish were excepted from the terms of the said Order in Council ;

Therefore the Governor General in Council is pleased, in virtue of section 16 of The Fisheries Act, chapter 95 of the Revised Statutes of Canada, to order, that the said Order in Council of the 27th May, 1901, prohibiting Net Fishing in Lakes St. Francis and St. Louis, shall be and the same is hereby rescinded, and the following Fishery Regulations substituted in lieu thereof :—

Fishing with nets of any kind in the waters of Lakes St. Francis and St. Louis between a line drawn from the western boundary of Glengarry County, in the Province of Ontario, and Huntingdon County, in the Province of Quebec, and a line drawn across Lake St. Louis, coinciding with the Canadian Pacific Railway bridge, including the waters of Caughnawaga and Chateauguay, is prohibited, except, however, in that

part of Lake St. Louis fronting the Parish or Township of Chateauguay, and extending to the middle of the Lake, where not more than ten seining licenses may be granted to residents of the above named Parish ;

Providing, however, that no seining whatever may be carried on during the months of July and August in each year, and that no netting of any kind be allowed in the Chateauguay River, or within two hundred yards, on either side of its mouth.

JOHN J. McGEE,
45-3 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 30th day of April, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

ON a Report dated 23rd April, 1903, from the Minister of Marine and Fisheries, submitting that he has had under consideration a copy of a by-law described as By-law No. 138 hereto attached, which the Harbour Commissioners of Montreal propose adding to the existing by-laws.

The Minister states that this by-law has been submitted to the Department of Justice, and in the opinion of that Department there is no legal objection to the by-law receiving the approval of the Governor General in Council.

The Minister recommends approval thereof.

The Committee submit the same for approval.

JOHN J. McGEE,
Clerk of the Privy Council.

Copy.

HARBOUR COMMISSIONERS OF MONTREAL.

COPY of a resolution adopted at an ordinary weekly meeting of the Harbour Commissioners of Montreal, held on the 13th day of April, 1903.

Resolved,—That the following be added to the By-laws as By-law number one hundred and thirty-eight (138) :—

BY-LAW No. 138.

"No goods, wares or merchandise of any kind whatsoever, can be sold upon Harbour property, or public weigh-houses established thereon, without the special permission of the Commissioners, and any person, firm or corporation obtaining such permission shall be liable for the payment of any business tax or license which the City of Montreal may impose."

Certified,

DAVID SEATH,
45-2 Secretary.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 5th day of May, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Governor General in Council, with a view to the better protection of the fisheries in the St. Lawrence and its tributaries, is pleased, in virtue of the provisions of section 16 of The Fisheries Act, chapter 95 of the Revised Statutes of Canada, to make the following Fishery Regulation :—

No fishing with seines, hoop nets (verveux), or nets of any kind is to be allowed during the months of July and August in each year in that part of the St. Lawrence River extending from Three Rivers to the international boundary line between Canada and the United States, including the Ottawa, Richelieu, Yamaska, St. Francis, and all the other tributaries of the St. Lawrence within the above named limits.

JOHN J. McGEE,
45-3 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 28th day of February, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Canadian Pacific Railway Company have applied to the Department of Public Works for the approval of a proposed general pier head-line in the Harbour of Vancouver, B.C.; this proposed extension of the pier head-line being intended to afford ampler wharf accommodation to meet the rapidly increasing shipping trade at Vancouver.

And whereas the Resident Engineer of the Department of Public Works, at New Westminster, reports as follows in regard to this application, the Acting Chief Engineer of the Department of Public Works concurring, viz.:—

"To any one familiar with the extent of the portion "of Burrard Inlet constituting the Harbour of Van- "couver, the concession asked for is comparatively so "slight as not to alter in any particular the existing "conditions as affecting the rights of the Dominion "Government. The extension of their present wharves "to a depth of some 60 feet of water only entails a "distance of some 600 feet in a direct line from the "face of their present wharves. The nearest land "opposite their proposed pier head-line is in the "opposite side of the harbour, some two miles distant; "a little to the west Brocton Point projects some "4,000 feet distant (see index plan), forming with the "main shore, Coal Harbour into which the Western "extension of these wharves will extend. The present "length of the proposed outer face wharves is some- "what limited, not exceeding 3,000 lineal feet in "water at present admitting of sea-going vessels. "This, however, by a judicious combination of slips, "as shown on the original plan, more than doubles "the available frontage. As the Pacific terminus of "their road and the entrepot of their Oriental trade, "the concession asked for by this proposed extension "of their wharves, possibly limited by the great depth "of water and heavy expense involved, is in my opinion, "extremely moderate. It is impossible to anticipate "or to state with any degree of accuracy the enormous "volume of trade that the next decade may develop, "and ample room for ships, warehouses and railway "sidings is the first requisite to be considered. When, "as above stated, the width of the harbour is some 2 "miles, the extension of a few hundred feet so far "from being detrimental will prove a decided advan- "tage not only to the Railway Co., but the public in "relieving the present congested state of the accom- "modation at both Railway Station and wharves, "which will be accomplished by the extended water "front and greater accommodation in rear of the "docks. The extension westward into Coal Harbour "is a matter of reclamation in comparatively shallow "water with a channel some 600 feet in width that "will require to be dredged to make it navigable for "boats of ordinary coasting draft."

Therefore the Governor General in Council is pleased to approve of the general pier head-line in the Harbour of Vancouver, proposed by the Canadian Pacific Railway Company, as shown on a sketch attached to Order in Council of 28th February, 1903, in this regard, and to order that this Order in Council do not become effective until publication thereof for two months in the *Canada Gazette* in order to permit of the reception of any objection which may be formulated to the "head-line" in question.

JOHN J. McGEE,
38-9 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 3rd day of February, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report dated 21st January, 1903, from the Minister of the Interior, submitting that Messrs. Macdonell and Martin, Commissioners appointed for the purpose of making a selection of Swamp Lands in

the Province of Manitoba to be granted to the province of Manitoba under the provisions of section 4, chapter 47, Revised Statutes of Canada, have made a joint report, dated 27th August, 1902, in which they submit, in accordance with the terms of the Order in Council in that behalf of the 19th June, 1886, and amending Order in Council of 27th February, 1899, a schedule of lands examined by them for the purpose mentioned, comprising an area of 149,400.85 acres.

That of the area thus examined the Commissioners find an area of 56,379.85 acres falling to the Province as Swamp Lands.

The Minister states that by a comparison of the schedule furnished by the Commissioners with the books of the Department of the Interior and its agencies in Manitoba, it has been found that of the total area of 56,379.85 acres selected as such Swamp Lands, an area of 27,764.85 acres is available.

The Minister submits a revised schedule of such of the lands included in the schedule of the Commissioners as are found available, comprising an area of 27,764 85 acres, and having satisfied himself of the accuracy of this revised schedule, hereto attached, the Minister recommends that the lands enumerated therein be vested in His Majesty King Edward the Seventh for the purposes of the Province of Manitoba under the provisions of the fourth section of chapter forty-seven of the Revised Statutes of Canada.

The Committee submit the same for approval.

JOHN J. McGEE,
Clerk of the Privy Council.

(61) LAKE HURON—KINCARDINE—LIGHTHOUSE REBUILT.

A new lighthouse has been built on the north pier, Kincardine, to replace the old front range lighthouse, destroyed by fire on the 9th July, 1902. The light will be put in operation, without further notice, as soon after the opening of navigation in the spring of 1903 as the building can be completed, and the exhibition of the temporary light will then be discontinued.

The lighthouse stands on the north pier, 230 feet from its west end, and 1200 feet N. 70° W. from Kincardine main lighthouse.

The lighthouse consists of a skeleton steel frame, square in plan, with sloping sides, painted brown, surmounted by a white, octagonal, wooden lantern. The tower is 33 feet high from its base to the vane on the lantern.

The light will be a fixed red light, elevated 35 feet above the level of the lake, and should be visible 7 miles from all points of approach by water. The illuminating apparatus is dioptric of the seventh order.

(63) RIVER ST. MARY—POINTE AUX PINS - RANGE LIGHTS ESTABLISHED.

Two range lights established by the Government of Canada on Pointe aux Pins, River St. Mary, were put in operation on the 11th April, 1903.

The lights are fixed white lights shown from lanterns with reflectors, hoisted on masts having targets affixed to them for day beacons.

It is intended during the present season to replace these temporary mast lights by lights shown from permanent enclosed light buildings.

The front mast stands on the north extremity of the sand spit running northward from the existing lighthouse on the south extremity of Pointe aux Pins; and is distant 1200 feet N. 7° E. therefrom.

Lat. N. 46° 28′ 5″
Long. W. 84 27 41

The back range light mast stands on the west shore of the little bay formed by the sand spit, and is 900 feet S. 55½° W. from the front mast.

The two lights in one, bearing S. 55½° W., lead up from the intersection of their alignment with the alignment of the Vidal shoals channel (American) range to a point abreast of Footes dock light. Vessels bound up should keep the Vidal shoals channel range lights in one until they reach the alignment of the above described Pointe aux Pins range. They should then keep the Pointe aux Pins range lights in one until Footes dock light is abeam, when they should steer S. 34° W. until Pointe aux Pins main light is abeam, when they should gradually haul up into the alignment of the St. Mary's river lower range lights (American). This course leads well clear of the shoals off Big point and Brush point.

The private range lights heretofore maintained between Pointe aux Pins light and Footes dock light have been ordered to be discontinued, as they marked approximately the course now indicated by the new Government range lights.

NOTICE TO MARINERS.

GOVERNMENT RIFLE RANGES, MCNAB'S ISLAND.

Owing to the extreme range of the Lee-Metford or Magazine Rifle, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

This area has been marked by four spar buoys, placed at intervals between the Thrum Cap Shoal and the Eastern Passage, at a distance of 3000 yards from the stop butts. The buoys mark the extreme limits of the danger zone. The spars are painted red, and are surmounted by cross heads painted red and white.

Notice is therefore hereby given that any ship or boat passing inside these buoys, during the hours of practice, incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab's Island is left flying.

This notice will have effect from the 10th May, 1903.

By order,

A. J. ERSKINE,
Lt.-Colonel, Chief Staff Officer.

Varennes lighthouse stands on the outer edge of the main road in the village, at a point 5662 feet N. 46° E. from Ile à l'Aigle front range lighthouse, and 265 feet N. 78° W. from the northern spire of Varennes village church. It is in the alignment of Pointe aux Trembles back range light (discontinued) and Ile à l'Aigle front range light.

The lighthouse consists of a skeleton steel frame, square in plan, with sloping sides, surmounted by an enclosed wooden watch room and a square wooden lantern. The side of the framing facing the channel is rendered more conspicuous by a wooden slatwork extending below the watch room. The steel frame is painted red and the woodwork white. The building is 61 feet high from the ground to the vane on the lantern.

The light will be a fixed white light, elevated 80 feet above the summer level of the river, and should be visible 4 miles in the line of range. The illuminating apparatus is catoptric.

This light in one with the front range light on Ile à l'Aigle, described in notice to mariners No. 110 (361) of 1902, bearing N. 46° E., forms a range which will

be known as Ile aux Vaches traverse range, and indicates the axis of the dredged ship channel from the point where it leaves the alignment of Ile Ste. Thérèse upper range lights to the bend below Ile aux Vaches light.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que l'article 2 des règlements relatifs aux mines alluviales dans le territoire du Yukon établis par l'arrêté en conseil du 13 de mars 1901, établit que pour un certificat de mineur titre délivré en faveur d'un particulier l'honoraire sera de $10, et les articles 29 et 34 des règlements en question pourvoient au paiement d'un honoraire de $15 pour l'enregistrement une concession de mine alluviale, et le paiement d'un pareil montant pour son renouvellement chaque année ;

Et considérant que le commissaire du territoire du Yukon recommande que le droit payable pour un certificat de mineur libre soit réduit à $7.50, et que l'honoraire pour la concession ou le renouvellement d'une concession de mine alluviale soit réduit à $10,—

A ces causes, il plaît au Gouverneur général en conseil, en vertu de l'article 47 de l'*Acte des terres fédérales*, tel que modifié par l'article 5 de l'acte chapitre 15 de 55–56 Victoria, et de l'article 8 de l'*Acte du territoire du Yukon*, tel que modifié par l'article 3 de l'acte chapitre 34 de 2 Edouard VII, d'ordonner que l'article 2 des règlements établis par l'arrêté en conseil du 13 de mars 1901 précité, soit et il est par le présent modifié en retranchant l'honoraire de $10 qui y est stipulé pour un certificat de mineur titre délivré à un particulier, et y substituant $7.50 ; et que les articles 29 et 34 des dits règlements soient et ils sont par le présent modifiés, en substituant le droit de $10 pour enregistrement ou pour le renouvellement d'une concession de mine alluviale au droit de $15 aujourd'hui exigé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 31e jour de mars 1903.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que l'article 41 des règlements relatifs aux mines alluviales dans le territoire du Yukon, établis par l'arrêté en conseil du 13 de mars 1901, statue que tout mineur libre ayant dûment délimité et enregistré un emplacement aura droit de le détenir pendant la période pour laquelle il a reçu une inscription, et ensuite d'année en année en renouvelant l'enregistrement ; pourvu, toutefois, que durant chaque année, et chaque année ensuivante, ce mineur libre exploite ou fasse exploiter l'emplacement même pour une valeur de deux cents piastres, ou il peut, à son choix, au lieu du travail exigé chaque année, payer au régistrateur des mines dans le bureau duquel l'emplacement est enregistré, la somme de deux cents piastres pour chacune des trois premières années, mais pour la quatrième et les années ensuivantes la somme de quatre cents piastres doit être payée au lieu du travail qui devrait être fait sur l'emplacement ou s'y rattachant ;

Et considérant que le commissaire du territoire du Yukon fait rapport qu'il serait avantageux au public si la somme de travail à faire chaque année sur un emplacement minier ne pouvait être commué par le paiement d'un droit au lieu du travail,—

A ces causes, il plaît au Gouverneur général en conseil, en vertu de la clause 47 de l'*Acte des terres fédérales*, telle que statuée par l'article 5 de l'acte 55-56 Victoria, chapitre 15, et de l'article 8 de l'*Acte du territoire du Yukon*, tel que statué par l'article 3 de l'acte 2 Edouard VII, chapitre 34, d'ordonner et il est par le présent ordonné, que les dispositions contenues dans les divers sous-articles de l'article 41 des règlements établis par un arrêté en conseil du 13 de mars 1901, permettant, au choix du mineur libre, de faire un paiement au lieu du travail obligatoire, soient rescindées à compter du premier jour d'août 1903.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 31e jour de mars 1903.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que l'article 6 des règlements concernant l'émission de baux pour draguer des minéraux dans les lits des rivières dans le territoire du Yukon, établis par l'arrêté en conseil du 18 de janvier 1898, établit que les locataires paieront à la Couronne un droit régalien de dix pour cent sur le rendement lorsqu'il excède $15,000, tel que démontré par les états assermentés que fournira mensuellement le locataire au commissaire des mines d'or pendant la saison d'opérations ; le dit droit régalien sera payé en même temps que chaque rapport.

Et considérant qu'à l'époque où ces règlements ont été approuvés le droit régalien sur l'or extrait en vertu des dispositions des règlements concernant les mines alluviales était de 10 pour cent du rendement brut, mais que depuis lors il a été réduit à 2½ pour cent sur la valeur de l'or exporté sans exemption,—

A ces causes, il plaît au Gouverneur général en conseil, en vertu des dispositions de la clause 7 de l'*Acte des terres fédérales*, telle que modifiée par l'article 5 du chapitre 15 de 55–56 Victoria, et de l'article 8 de l'*Acte du territoire du Yukon*, tel que modifié par l'article 3 du chapitre 34 de 2 Edouard VII, d'ordonner que la partie de l'article 6 des règlements concernant l'émission de baux pour draguer des minéraux dans les rivières du territoire du Yukon, ci-dessus cités, et aussi l'article 6*a* des dits règlements, soient et ils sont par le présent rescindés, et remplacés par ce qui suit :—

"Le même droit régalien sera payé sur le rendement de l'or, tel que prescrit, ou sera ci-après prescrit, dans le cas de concessions de mines alluviales, ce droit régalien devant être payé en la manière établie par les règlements concernant les mines alluviales.

JOHN J. McGEE,
42–4 Greffier du Conseil privé.

AVIS AUX NAVIGATEURS.

No. 24 de 1903.

(Avis de l'Atlantique No. 13.)

Tous les relèvements, à moins d'avis contraire, sont magnétiques et sont donnés venant de la mer, les milles sont des milles marins, les hauteurs sont au-dessus des hautes eaux, et toutes les profondeurs sont à l'eau basse moyenne.

QUÉBEC.

(50) FLEUVE SAINT-LAURENT—CONTRECŒUR—BALISES DE JOUR.

Deux tours de feux d'alignement, qui seront connues comme l'alignement de Verchères à Contrecœur, ont été érigées par le gouvernement du Canada dans le prolongement E. de l'axe du nouveau chenal dragué entre la traverse Verchères et la traverse Contrecœur. Le bout O. du même axe est marqué par les feux d'alignement du village de Contrecœur.

On ne se propose pas d'allumer des feux dans ces tours pour le présent, mais les tours servent aujourd'hui de balises de jour, et doivent être tenues l'une dans l'autre par les vaisseaux qui descendent, direction N. 54° 30' E., à partir du moment qu'ils quittent l'alignement de feux d'alignement de la traverse Verchères jusqu'à ce qu'ils atteignent l'alignement des feux d'alignement de la traverse Contrecœur.

La tour antérieure est carrée, en bois, avec côtés en pente, assise sur une haute pile en caissonnage construite dans un pied d'eau sur les battures de Contrecœur, rive sud du fleuve. Elle est à 4,350 pieds N. 42° O. de l'église du village de Contrecœur.

Lat. N. 45° 51′ 54″
Long. O. 73 15 23

La hauteur de la pile au-dessus du niveau d'été du fleuve est de 25 pieds. La hauteur de la tour depuis la pile jusqu'au ventilateur sur le faîte du toit est de 13 pieds. La pile et la tour sont blanches. Le foyer du feu une fois établi sera à 31 pieds au-dessus du niveau d'été du fleuve.

La tour postérieure est carrée, avec côtés en pente, consistant en une charpente en acier, à jour, avec lattes sur la partie supérieure du côté qui fait face à l'alignement. La charpente d'acier est peinturée en brun, et les lattes sont blanches. La hauteur de la tour depuis la pile jusqu'au dessus du lattage est de 42 pieds. Cette tour n'a pas encore été surmontée d'une lanterne.

Le plancher de la pile est à 23 pieds au-dessus du niveau d'été du fleuve. Cette pile repose sur un îlet émergeant de la même batture sur laquelle repose la pile antérieure. Elle est à 9,250 pieds N. 54° 30′ E. de la tour antérieure.

(51) FLEUVE SAINT-LAURENT—CHENAL DES NAVIRES EN AVAL DE MONTRÉAL—VARENNES—PHARE ÉTABLI.

Un phare, établi par le gouvernement du Canada, dans le village de Varennes, sur la rive sud du fleuve Saint-Laurent en aval de Montréal, sera mis en fonctionnement à l'ouverture de la navigation au printemps de 1903.

Lat. N. 45° 41′ 11″
Long. O. 73 26 40

Le phare de Varennes repose sur le bord extérieur du grand chemin dans le village à 5,662 pieds N. 46° E. du phare d'alignement antérieur de l'Ile à l'Aigle, et à 265 pieds N. 78° O. du clocher nord de l'église du village de Varennes. Il est dans l'alignement du feu d'alignement postérieur de la Pointe aux Trembles (supprimé) et du feu d'alignement antérieur de l'Ile à l'Aigle.

Le phare consiste en une charpente d'acier, à jour, carrée, avec côtés en pente, surmontée d'une guérite en bois et d'une lanterne carrée en bois. Le côté de la charpente qui fait face au chenal est rendu plus apparent par un lattage en bois s'étendant jusqu'au bas de la guérite. La charpente d'acier est peinturée en rouge et la boiserie en blanc. Le bâtiment a 61 pieds de hauteur depuis le sol jusqu'à la girouette sur la lanterne.

Le feu sera blanc fixe, à 80 pieds au dessus du niveau d'été du fleuve, et devrait être visible à 4 milles dans l'alignement. L'appareil lumineux est catoptrique.

Ce feu, en conjonction avec le feu d'alignement antérieur sur l'Ile à l'Aigle décrit dans l'Avis aux Navigateurs No. 110 (361) de 1902, direction N. 46° E., forme un alignement qui sera appelé Alignement de la traverse Ile aux Vaches, et indique l'axe du chenal des navires dragué depuis le point où il quitte l'alignement des feux d'alignement supérieurs de l'Ile Ste-Thérèse jusqu'aux coude en bas du phare de l'Ile aux Vaches.

(52) FLEUVE SAINT-LAURENT—CHENAL DES NAVIRES EN AVAL DE MONTRÉAL—POINTE AUX TREMBLES—FEUX D'ALIGNEMENT SUPPRIMÉS.

A compter de l'ouverture de la navigation au printemps de 1903, les feux d'alignement dans le village de la Pointe aux Trembles, qui jusqu'aujourd'hui marquaient le chenal des navires dans la traverse Ile aux Vaches, bien qu'ils n'étaient pas dans l'axe de ce chenal, seront permanemment supprimés, ayant été remplacés, par les feux d'alignement de la traverse Ile aux Vaches, ci-dessus décrits.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

Greffier du Sénat.

THOMAS B. FLINT,
Greffier des Communes.

Règle spéciale du Sénat.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

SAML. E. ST. O. CHAPLEAU,
Greffier du Sénat.

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées

ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

THOMAS B. FLINT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

THOMAS B. FLINT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

OTTAWA, SATURDAY, MAY 16, 1903.

DOMINION OF CANADA.

APPOINTMENTS.

DEPARTMENT OF THE SECRETARY OF STATE OF CANADA.

His Excellency the Governor General has been pleased to make the following appointment, viz. :—

Ottawa, 5th May, 1903.

A. H. Hilyard, of Dalhousie, in the Province of New Brunswick: to be a Member of the Pilotage Authority for the District of Restigouche, in the said Province.

ORDERS IN COUNCIL.

[Ref. 442,757]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 14th day of April, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS Section 3 of the Regulations governing the granting of yearly licenses to cut timber on Dominion Lands in Manitoba, the North-west Territories, and within the Railway Belt in British Columbia, established by the Order in Council of the 1st of July, 1898, as amended by subsequent Orders in Council, provides that when a licensee has complied with all the conditions set forth in his license and the Regulations, and where no portion of the timber is required for settlement or other public purpose, of which the Minister of the Interior is to be the judge, the license may be renewed for another year subject to such revision of the annual rental and royalty to be paid therefor as may be fixed by the Governor in Council ;

And whereas representations have been made that the tenure of a license under the provisions above cited is unsatisfactory as no guarantee is given that the license will be renewed, provided the licensee has fully complied with the provisions thereof, and it is considered that an assurance should be given to a licensee that his license will be renewed if he has complied with its conditions ;

Therefore the Governor General in Council is pleased to Order that the said Section 3 of the Regulations governing the granting of licenses to cut timber now in force, shall be, and the same is hereby repealed and the following substituted in lieu thereof :—

"So long as the licensee complies with the conditions of his license and of the regulations, he shall "be entitled to a renewal of his license from year to "year while merchantable timber remains upon the "area licensed. When a substantial portion of the said "area has been denuded of timber, the Minister may "dispose of the same under sale or settlement regulations, provided that no such disposition shall be "made of land immediately contiguous to merchantable standing timber, or in such a way as to endanger "destruction thereof by fire."

The Governor General in Council is further pleased to Order that subsection 2 of section 10 of the said Regulations be rescinded, as the provision therein made for the withdrawal of lands from the operation of a license for settlement, is provided for in the above proposed amendment to the Regulations ;

The Governor General in Council is also pleased to order that subsection 9 of section 10 of the above cited Regulations shall be and the same is hereby rescinded and the following substituted in lieu thereof :—

"The license shall be subject to forfeiture for wilful "infraction of any of the conditions to which it is "subject, or for any fraudulent return, and in such "case the Minister of the Interior shall, under the "restrictions hereinafter provided, have the right, "without compensation to the licensee, to cancel the "same and to make a new license or disposition of "the said berth to any other party in accordance with "these regulations ; provided that the Minister of the "Interior, if he sees fit, may refrain from forfeiting "such license for non-payment of dues and may "enforce payment of such dues in the manner provided "by the said Act ; provided further that if the "Minister shall decide to exercise the powers of cancellation conferred by this subsection he shall give "the licensee three months notice in writing, by mailing the same to the last known place of address of

"the licensee, and by publishing the said notice not "less than once a week during three months in a "newspaper published in the Provinces of Manitoba "and British Columbia, and publishing said notice "also in each issue of the official gazette during a "period of three months. If the licensee, within one "month after the expiration of the last publication, as "aforesaid, disputes the existence of any cause suffi- "cient under this subsection to warrant the cancel- "lation of his license, the question of fact involved "shall be referred by the Minister to the Exchequer "Court of Canada for report. The report of such "Court shall be appealable in like manner as any "other decision of the said Court. If the violation of "the regulations refers merely to payment of money, "the Court may relieve from forfeiture on payment "of double the amount found to be due, and costs. "Upon the final report from the Court being received, "the Minister may proceed in accordance with such "finding under this subsection."

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 27th day of April, 1903.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Governor General in Council is pleased, in virtue of the provisions of section 16 of The Fisheries Act, chapter 95 of the Revised Statutes of Canada, to make the following special Fishery Regulations for the Province of Ontario, and the same are hereby made and established accordingly, viz :—

1. Sturgeon shall not be captured, except by means of gill-nets and pound-nets. The mesh of a Sturgeon net shall not be less than twelve inches extension measure.

2. Sturgeon shall not be captured during the months of May and June. (From 1st May to 30th June both days inclusive.)

3. The use, for the capture of Sturgeon, of bare, unbaited hooks, or grapnels, spears or nets other than a Sturgeon net, is prohibited.

4. No Sturgeon under four feet in length shall be taken, bought, sold or possessed, and if captured shall be liberated alive.

JOHN J. McGEE,
44-3 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 5th day of May, 1903.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it has been represented that very considerable benefit to the fisheries of Lakes St. Louis and St. Francis, resulted from the Order in Council of the 27th May, 1901; and it has been further represented that a continuance of the prohibition would materially augment the beneficial results, but that hardship from its effects would be removed from certain fishermen of the Parish of Chateauguay if a portion of the Lake in front of that parish were excepted from the terms of the said Order in Council;

Therefore the Governor General in Council is pleased, in virtue of section 16 of The Fisheries Act, chapter 95 of the Revised Statutes of Canada, to order, that the said Order in Council of the 27th May, 1901, prohibiting Net Fishing in Lakes St. Francis and St. Louis, shall be and the same is hereby rescinded, and the following Fishery Regulations substituted in lieu thereof :—

Fishing with nets of any kind in the waters of Lakes St. Francis and St. Louis between a line drawn from the western boundary of Glengarry County, in the Province of Ontario, and Huntingdon County, in the Province of Quebec, and a line drawn across Lake St. Louis, coinciding with the Canadian Pacific Railway bridge, including the waters of Caughnawaga and Chateauguay, is prohibited, except, however, in that part of Lake St. Louis fronting the Parish or Township of Chateauguay, and extending to the middle of the Lake, where not more than ten seining licenses may be granted to residents of the above named Parish;

Providing, however, that no seining whatever may be carried on during the months of July and August in each year, and that no netting of any kind be allowed in the Chateauguay River, or within two hundred yards, on either side of its mouth.

JOHN J. McGEE,
45-3 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 30th day of April, 1903.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

ON a Report dated 23rd April, 1903, from the Minister of Marine and Fisheries, submitting that he has had under consideration a copy of a by-law described as By-law No. 138 hereto attached, which the Harbour Commissioners of Montreal propose adding to the existing by-laws.

The Minister states that this by-law has been submitted to the Department of Justice, and in the opinion of that Department there is no legal objection to the by-law receiving the approval of the Governor General in Council.

The Minister recommends approval thereof.

The Committee submit the same for approval.

JOHN J. McGEE,
Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 5th day of May, 1903.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Governor General in Council, with a view to the better protection of the fisheries in the St. Lawrence and its tributaries, is pleased, in virtue of the provisions of section 16 of The Fisheries Act, chapter 95 of the Revised Statutes of Canada, to make the following Fishery Regulation :—

No fishing with seines, hoop nets (verveux), or nets of any kind is to be allowed during the months of

July and August in each year in that part of the St. Lawrence River extending from Three Rivers to the international boundary line between Canada and the United States, including the Ottawa, Richelieu, Yamaska, St. Francis, and all the other tributaries of the St. Lawrence within the above named limits.

JOHN J. McGEE,
45-3 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA

Saturday, the 28th day of February, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Canadian Pacific Railway Company have applied to the Department of Public Works for the approval of a proposed general pier head-line in the Harbour of Vancouver, B.C.; this proposed extension of the pier head-line being intended to afford ampler wharf accommodation to meet the rapidly increasing shipping trade at Vancouver.

And whereas the Resident Engineer of the Department of Public Works, at New Westminster, reports as follows in regard to this application, the Acting Chief Engineer of the Department of Public Works concurring, viz.:—

"To any one familiar with the extent of the portion "of Burrard Inlet constituting the Harbour of Van- "couver, the concession asked for is comparatively so "slight as not to alter in any particular the existing "conditions as affecting the rights of the Dominion "Government. The extension of their present wharves "to a depth of some 60 feet of water only entails a "distance of some 600 feet in a direct line from the "face of their present wharves. The nearest land "opposite their proposed pier head-line is in the "opposite side of the harbour, some two miles distant; "a little to the west Brocton Point projects some "4,000 feet distant (see index plan), forming with the "main shore, Coal Harbour into which the Western "extension of these wharves will extend. The present "length of the proposed outer face wharves is some- "what limited, not exceeding 3,000 lineal feet in "water at present admitting of sea-going vessels. "This, however, by a judicious combination of slips, "as shown on the original plan, more than doubles "the available frontage. As the Pacific terminus of "their road and the entrepot of their Oriental trade, "the concession asked for by this proposed extension "of their wharves, possibly limited by the great depth "of water and heavy expense involved, is in my opinion, "extremely moderate. It is impossible to anticipate "or to state with any degree of accuracy the enormous "volume of trade that the next decade may develop, "and ample room for ships, warehouses and railway "sidings is the first requisite to be considered. When, "as above stated, the width of the harbour is some 2 "miles, the extension of a few hundred feet so far "from being detrimental will prove a decided advan- "tage not only to the Railway Co., but the public in "relieving the present congested state of the accom- "modation at both Railway Station and wharves, "which will be accomplished by the extended water "front and greater accommodation in rear of the "docks. The extension westward into Coal Harbour "is a matter of reclamation in comparatively shallow "water with a channel some 600 feet in width that "will require to be dredged to make it navigable for "boats of ordinary coasting draft."

Therefore the Governor General in Council is pleased to approve of the general pier head-line in the Harbour of Vancouver, proposed by the Canadian Pacific Railway Company, as shown on a sketch attached to Order in Council of 28th February, 1903, in this regard, and to order that this Order in Council do not become effective until publication thereof for two months in the *Canada Gazette* in order to permit of the reception of any objection which may be formulated to the "head-line" in question.

JOHN J. McGEE,
38-9 Clerk of the Privy Council.

BRITISH COLUMBIA.

(64) HEAD OF HOWE SOUND—WHARF—HYDROGRAPHIC NOTES.

A wharf has been built by the Government of British Columbia at the head of Howe sound, which runs northwardly from the strait of Georgia into the mainland of British Columbia.

This wharf extends 7 cables S. 12° W., from the southeast point of the delta at the mouth of Squamish river and its outer end is in 9 feet water. The line of the wharf passes 50 feet to the westward of the snag shown on Admiralty chart No. 579 and the outer end of the wharf is 125 feet outside the snag.

The sand bank extending south from the delta is now twice the width shown on the charts. It dries at low water and its outer edge drops off at once to 5 fathoms; the dry sand at low water extends to within a few feet of the end of the wharf. As the remains of the snag shown are inside the wharf, and at a point which dries at low tide, it may be removed from the chart.

The name Staamus is not now locally known, but there is a settlement, with a post office, named Squamish on the east side of the east mouth of the river.

(68) HALIFAX HARBOUR—MCNAB ISLAND—GOVERNMENT RIFLE RANGES.

The usual annual notice has been issued by the Chief Staff Officer of the troops in Canada, with reference to the resumption of target practice on McNab island, to begin on 10th May, 1903, as follows :

Owing to the extreme range of the Lee-Metford or magazine rifle, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

This area has been marked by four spar buoys, placed at intervals between the Thrumcap shoal and the eastern passage, at a distance of 3,000 yards from the stop butts. The buoys mark the extreme limits of the danger zone. The spars are painted red, and are surmounted by cross heads painted red and white.

Notice is therefore hereby given that any ship or boat passing inside these buoys, during the hours of practice, incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab island is left flying.

(69) LAKE ST. JOHN—LIGHTS AND BUOYS.

In the summer of 1901 two additional lights and eight spar buoys were established by the Government of Canada in Lake St. John, in the County of Chicoutimi, Quebec, for the benefit of the ferry steamer running between the Government wharves at St. Jérome, St. Gédéon and Rivière à la Pipe.

The lights are shown from pressed glass lens lanterns hoisted on poles, and the buoys are spars bolted to the rocks on the sides of the channel. No particulars respecting the positions or colours of these buoys have been received ; they have been placed to suit local traffic.

Rivière à la Pipe light is shown from a pole erected on the Government wharf of that name, on the north side of the lake. This light should be entered in the Canadian list of lights and fog signals, 1903, under the number 1140.

The wharf is built on lot 18 in the first range of the Township of Taillon, ¾ mile west of the mouth of the river. It is 463 feet long built out at right angles to the shore ; the light is on the southwest corner of the wharf.

The light established on Ile au Bélier, east of Ile Verte, ½ mile northwest from St. Gédéon, is shown from a pole on the southwestern part of the island. The pole is 16 feet high with a small shed at its base. This light should be entered in the Canadian list of lights and fog signals, 1903, under the number 1141.

(61) LAKE HURON—KINCARDINE—LIGHTHOUSE REBUILT.

A new lighthouse has been built on the north pier, Kincardine, to replace the old front range lighthouse, destroyed by fire on the 9th July, 1902. The light will be put in operation, without further notice, as soon after the opening of navigation in the spring of

1903 as the building can be completed, and the exhibition of the temporary light will then be discontinued.

The lighthouse stands on the north pier, 230 feet from its west end, and 1200 feet N. 70° W. from Kincardine main lighthouse.

The lighthouse consists of a skeleton steel frame, square in plan, with sloping sides, painted brown, surmounted by a white, octagonal, wooden lantern. The tower is 33 feet high from its base to the vane on the lantern.

The light will be a fixed red light, elevated 35 feet above the level of the lake, and should be visible 7 miles from all points of approach by water. The illuminating apparatus is dioptric of the seventh order.

(63) River St. Mary—Pointe aux Pins - Range lights established.

Two range lights established by the Government of Canada on Pointe aux Pins, River St. Mary, were put in operation on the 11th April, 1903.

The lights are fixed white lights shown from lanterns with reflectors, hoisted on masts having targets affixed to them for day beacons.

It is intended during the present season to replace these temporary mast lights by lights shown from permanent enclosed light buildings.

The front mast stands on the north extremity of the sand spit running northward from the existing lighthouse on the south extremity of Pointe aux Pins; and is distant 1200 feet N. 7° E. therefrom.

Lat. N. 46° 28′ 5″
Long. W. 84 27 41

The back range light mast stands on the west shore of the little bay formed by the sand spit, and is 900 feet S. 55½° W. from the front mast.

The two lights in one, bearing S. 55½° W., lead up from the intersection of their alignment with the alignment of the Vidal shoals channel (American) range to a point abreast of Footes dock light. Vessels bound up should keep the Vidal shoals channel range lights in one until they reach the alignment of the above described Pointe aux Pins range. They should then keep the Pointe aux Pins range lights in one until Footes dock light is abeam, when they should steer S. 34° W. until Pointe aux Pins main light is abeam, when they should gradually haul up into the alignment of the St. Mary's river lower range lights (American). This course leads well clear of the shoals off Big point and Brush point.

The private range lights heretofore maintained between Pointe aux Pins light and Footes dock light have been ordered to be discontinued, as they marked approximately the course now indicated by the new Government range lights.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT qu'il a été représenté que l'arrêté en conseil du 27 de mai 1901, a été d'un avantage considérable aux pêcheries des lacs St-Louis et St-François ; et considérant qu'il a été représenté en outre, qu'une continuation de la prohibition augmenterait essentiellement les bons résultats, mais que les inconvénients résultant de ses effets seraient évités pour certains pêcheurs de la paroisse de Chateauguay si une partie du lac en face de cette paroisse était exceptée des prescriptions du dit arrêté en conseil ;

A ces causes, il plaît au Gouverneur général en conseil, en vertu de l'article 16 de l'*Acte des pêcheries*, chapitre 95 des Statuts Revisés du Canada, d'ordonner que le dit arrêté en conseil au 27 de mai 1901, défendant la pêche aux rets dans les lacs St-François et St-Louis, soit et il est par le présent rescindé, et les règlements suivants lui sont substitués :—

Pêcher aux rets de toute sorte dans les eaux des lacs St-François et St-Louis entre une ligne tirée de la limite ouest du comté de Glengarry, dans la province d'Ontario, et le comté de Huntingdon, dans la province de Québec, et une ligne tirée en travers du lac St-Louis, coïncidant avec le pont du chemin de fer Canadien du Pacifique, y compris les eaux de Caughnawaga et Chateauguay, est défendu, sauf, toutefois, dans cette partie du lac St-Louis, en face de la paroisse ou township de Chateauguay, et s'étendant jusqu'au milieu du lac, où pas plus que dix permis de seine pourront être délivrés aux résidents de la susdite paroisse.

Pourvu, toutefois, qu'on ne pourra aucunement seiner durant les mois de juillet et août de chaque année, et qu'aucune pêche aux rets ne sera permise dans la rivière Chateauguay, ou en dedans de deux cents verges, de chaque côté de son embouchure.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 21 de janvier 1903, du ministre de l'Intérieur, exposant que Messieurs Macdonell et Martin, commissaires nommés pour choisir les terrains marécageux dans la province du Manitoba qui seront attribués à cette province en vertu des dispositions de l'article 4, chapitre 47, Statuts Revisés du Canada, ont fait un rapport conjoint daté respectivement le 27 août 1902, dans lequel ils soumettent, conformément aux termes de l'arrêté en conseil à ce sujet du 19 juin 1886, et l'arrêté en conseil modificatif du 27 février 1899, une liste des terrains qu'ils ont examinés dans le but susdit, comprenant une étendue de 149,400·85 acres.

Le Ministre dit que sur l'étendue ainsi examinée les commissaires constatent que 56,379·85 reviennent à la province comme terrains marécageux.

En comparant la liste fournie par les commissaires avec les livres du ministère de l'Intérieur et ses agences au Manitoba, on a trouvé que sur l'étendue totale de 56,379·85 acres choisis comme tels terrains marécageux, une étendue de 27,764·85 acres est disponible.

Le Ministre soumet une liste revisée de ceux des terrains compris dans les listes des commissaires qui sont trouvés disponibles, comprenant une étendue de

Le comité soumet ce qui précède à l'approbation.

QUÉBEC.

(69) LAC SAINT-JEAN—FEUX ET BOUÉES.

Durant l'été de 1901 deux feux supplémentaires et huit bouées-espars furent établis par le gouvernement du Canada dans le lac Saint-Jean, dans le comté de Chicoutimi, Québec, pour l'avantage du bateau-passeur faisant le service entre les quais de l'Etat à Saint-Jérôme, Saint-Gédéon et Rivière-à-la-Pipe.

Les feux sont montrés de lanternes lenticulaires de verre pressé hissées sur des poteaux, et les bouées sont des espars boulonnés aux rochers sur les côtés du chenal. Nuls détails concernant les positions ou couleurs de ces bouées ont été reçues ; elles ont été placées pour faciliter le trafic local.

Le feu de Rivière-à-la-Pipe est montré d'un poteau planté sur le quai de ce nom, sur le côté nord du lac. Ce feu devrait être inséré sur la Liste des phares et signaux de brume canadiens, 1903, sous le numéro 1140.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

And whereas we have seen fit to ordain and declare that the tracts of land situated in the Province of Ontario and hereinafter described are a penitentiary and are to be so held within the meaning of the Act as a penitentiary for the Province of Ontario,—

1stly. All and singular that certain parcel or tract of land and premises situate, lying and being in the township of Kingston and County of Frontenac and Province of Ontario and being the south west part of a plot of 4½ acres of land known as Lot No. 1 lying between King and Main Streets in a town lot laid out upon the south-west quarter of Lot No. 19 and on the front of Lot No. 18 in the First Concession of the said Township of Kingston, containing by admeasurement about two and three-quarter acres of land ; 2ndly. ORDERS IN COUNCIL.

[Ref. 442,757]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 14th day of April, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS Section 3 of the Regulations governing the granting of yearly licenses to cut timber on Dominion Lands in Manitoba, the North-west Territories, and within the Railway Belt in British Columbia, established by the Order in Council of the 1st of July, 1898, as amended by subsequent Orders in Council, provides that when a licensee has complied with all the conditions set forth in his license and the Regulations, and where no portion of the timber is required for settlement or other public purpose, of which the Minister of the Interior is to be the judge, the license may be renewed for another year subject to such revision of the annual rental and royalty to be paid therefor as may be fixed by the Governor in Council ;

And whereas representations have been made that the tenure of a license under the provisions above cited is unsatisfactory as no guarantee is given that the license will be renewed, provided the licensee has fully complied with the provisions thereof, and it is considered that an assurance should be given to a licensee that his license will be renewed if he has complied with its conditions ;

Therefore the Governor General in Council is pleased to Order that the said Section 3 of the Regulations governing the granting of licenses to cut timber now in force, shall be, and the same is hereby repealed and the following substituted in lieu thereof :—

"So long as the licensee complies with the conditions of his license and of the regulations, he shall "be entitled to a renewal of his license from year to "year while merchantable timber remains upon the "area licensed. When a substantial portion of the said "area has been denuded of timber, the Minister may "dispose of the same under sale or settlement regulations, provided that no such disposition shall be "made of land immediately contiguous to merchantable standing timber, or in such a way as to endanger "destruction thereof by fire."

The Governor General in Council is further pleased to Order that subsection 2 of section 10 of the said Regulations be rescinded, as the provision therein made for the withdrawal of lands from the operation of a license for settlement, is provided for in the above proposed amendment to the Regulations ;

The Governor General in Council is also pleased to order that subsection 9 of section 10 of the above cited Regulations shall be and the same is hereby rescinded and the following substituted in lieu thereof :—

"The license shall be subject to forfeiture for wilful "infraction of any of the conditions to which it is "subject, or for any fraudulent return, and in such "case the Minister of the Interior shall, under the "restrictions hereinafter provided, have the right, "without compensation to the licensee, to cancel the "same and to make a new license or disposition of "the said berth to any other party in accordance with "these regulations ; provided that the Minister of the "Interior, if he sees fit, may refrain from forfeiting "such license for non-payment of dues and may "enforce payment of such dues in the manner provided "by the said Act ; provided further that if the "Minister shall decide to exercise the powers of cancellation conferred by this subsection he shall give "the licensee three months notice in writing, by mailing the same to the last known place of address of "the licensee, and by publishing the said notice not "less than once a week during three months in a "newspaper published in the Provinces of Manitoba "and British Columbia, and publishing said notice "also in each issue of the official gazette during a "period of three months. If the licensee, within one "month after the expiration of the last publication, as "aforesaid, disputes the existence of any cause sufficient under this subsection to warrant the cancellation of his license, the question of fact involved "shall be referred by the Minister to the Exchequer "Court of Canada for report. The report of such "Court shall be appealable in like manner as any "other decision of the said Court. If the violation of "the regulations refers merely to payment of money, "the Court may relieve from forfeiture on payment "of double the amount found to be due, and costs. "Upon the final report from the Court being received, "the Minister may proceed in accordance with such "finding under this subsection."

JOHN J. McGEE,

46-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 5th day of May, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it has been represented that very considerable benefit to the fisheries of Lakes St. Louis and St. Francis, resulted from the Order in Council of the 27th May, 1901 ; and it has been further represented that a continuance of the prohibition would materially augment the beneficial results, but that hardship from its effects would be removed from certain fishermen of the Parish of Chateauguay if a portion of the Lake in front of that parish were excepted from the terms of the said Order in Council ;

Therefore the Governor General in Council is pleased, in virtue of section 16 of The Fisheries Act, chapter 95 of the Revised Statutes of Canada, to order, that the said Order in Council of the 27th May, 1901, prohibiting Net Fishing in Lakes St. Francis and St. Louis, shall be and the same is hereby rescinded, and the following Fishery Regulations substituted in lieu thereof :—

Fishing with nets of any kind in the waters of Lakes St. Francis and St. Louis between a line drawn from the western boundary of Glengarry County, in the Province of Ontario, and Huntingdon County, in the Province of Quebec, and a line drawn across Lake St. Louis, coinciding with the Canadian Pacific Railway bridge, including the waters of Caughnawaga and Chateauguay, is prohibited, except, however, in that part of Lake St. Louis fronting the Parish or Township of Chateauguay, and extending to the middle of the Lake, where not more than ten seining licenses

may be granted to residents of the above named Parish ;

Providing, however, that no seining whatever may be carried on during the months of July and August in each year, and that no netting of any kind be allowed in the Chateauguay River, or within two hundred yards, on either side of its mouth.

JOHN J. McGEE,
45-3 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 5th day of May, 1903.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

(64) HEAD OF HOWE SOUND—WHARF—HYDROGRAPHIC NOTES.

A wharf has been built by the Government of British Columbia at the head of Howe sound, which runs northwardly from the strait of Georgia into the mainland of British Columbia.

This wharf extends 7 cables S. 12° W., from the southeast point of the delta at the mouth of Squamish river and its outer end is in 9 feet water. The line of the wharf passes 50 feet to the westward of the snag shown on Admiralty chart No. 579 and the outer end of the wharf is 125 feet outside the snag.

The sand bank extending south from the delta is now twice the width shown on the charts. It dries at low water and its outer edge drops off at once to 5 fathoms; the dry sand at low water extends to within a few feet of the end of the wharf. As the remains of the snag shown are inside the wharf, and at a point which dries at low tide, it may be removed from the chart.

The name Staamus is not now locally known, but there is a settlement, with a post office, named Squamish on the east side of the east mouth of the river.

(68) HALIFAX HARBOUR—MCNAB ISLAND—GOVERNMENT RIFLE RANGES.

The usual annual notice has been issued by the Chief Staff Officer of the troops in Canada, with reference to the resumption of target practice on McNab island, to begin on 10th May, 1903, as follows :

Owing to the extreme range of the Lee-Metford or magazine rifle, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

This area has been marked by four spar buoys, placed at intervals between the Thrumcap shoal and the eastern passage, at a distance of 3,000 yards from the stop butts. The buoys mark the extreme limits of the danger zone. The spars are painted red, and are surmounted by cross heads painted red and white.

Notice is therefore hereby given that any ship or boat passing inside these buoys, during the hours of practice, incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab island is left flying.

The lights are shown from pressed glass lens lanterns hoisted on poles, and the buoys are spars bolted to the rocks on the sides of the channel. No particulars respecting the positions or colours of these buoys have been received; they have been placed to suit local traffic.

Rivière à la Pipe light is shown from a pole erected on the Government wharf of that name, on the north side of the lake. This light should be entered in the Canadian list of lights and fog signals, 1903, under the number 1140.

A new lighthouse has been built on the north pier, Kincardine, to replace the old front range lighthouse, destroyed by fire on the 9th July, 1902. The lighthouse stands on the north pier, 230 feet from its west end, and 1200 feet N. 70° W. from Kincardine main lighthouse.

The lighthouse consists of a skeleton steel frame, square in plan, with sloping sides, painted brown, surmounted by a white, octagonal, wooden lantern. The tower is 33 feet high from its base to the vane on the lantern.

(62) LAKE HURON—KINCARDINE—FOG ALARM ESTABLISHED.

A steam fog siren, established in connection with the town waterworks machinery at Kincardine, will be put in operation without further notice on or about 1st May, 1903.

During thick weather, throughout the season of navigation, the siren will give blasts of 2½ seconds' duration, with intervals of 42½ seconds between them, or one blast every 45 seconds.

The waterworks building is situated on the lake shore, 1375 feet north of the harbour entrance. It is a conspicuous building, of white brick, with a high stack.

The siren rises from the roof, and is 30 feet above the level of the lake.

(63) RIVER ST. MARY—POINTE AUX PINS—RANGE LIGHTS ESTABLISHED.

Two range lights established by the Government of Canada on Pointe aux Pins, River St. Mary, were put in operation on the 11th April, 1903.

The lights are fixed white lights shown from lanterns with reflectors, hoisted on masts having targets affixed to them for day beacons.

It is intended during the present season to replace these temporary mast lights by lights shown from permanent enclosed light buildings.

The front mast stands on the north extremity of the sand spit running northward from the existing lighthouse on the south extremity of Pointe aux Pins; and is distant 1200 feet N. 7° E. therefrom.

Lat. N. 46° 28′ 5″
Long. W. 84 27 41

The back range light mast stands on the west shore of the little bay formed by the sand spit, and is 900 feet S. 55½° W. from the front mast.

The two lights in one, bearing S. 55½° W., lead up from the intersection of their alignment with the alignment of the Vidal shoals channel (American) range to a point abreast of Footes dock light. Vessels bound up should keep the Vidal shoals channel range lights in one until they reach the alignment of the above described Pointe aux Pins range. They should then keep the Pointe aux Pins range lights in one until Footes dock light is abeam, when they should steer S. 34° W. until Pointe aux Pins main light is abeam, when they should gradually haul up into the alignment of the St. Mary's river lower range lights (American). This course leads well clear of the shoals off Big point and Brush point.

The private range lights heretofore maintained between Pointe aux Pins light and Footes dock light have been ordered to be discontinued, as they marked approximately the course now indicated by the new Government range lights.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît au Gouverneur général en conseil, dans le but de mieux protéger des pêcheries dans le St-Laurent et ses tributaires, en vertu des dispositions de l'article 16 de l'*Acte des pêcheries*, chapitre 95 des Statuts Revisés du Canada, de faire le règlement de pêche suivant :—

JOHN J. McGEE,

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 5e jour de mai 1903.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT qu'il a été représenté que l'arrêté en conseil du 27 de mai 1901, a été d'un avantage considérable aux pêcheries des lacs St-Louis et St-François ; et considérant qu'il a été représenté en outre, qu'une continuation de la prohibition augmenterait essentiellement les bons résultats, mais que les inconvénients résultant de ses effets seraient évités pour certains pêcheurs de la paroisse de Chateauguay si une partie du lac en face de cette paroisse était exceptée des prescriptions du dit arrêté en conseil ;

A ces causes, il plaît au Gouverneur général en conseil, en vertu de l'article 16 de l'*Acte des pêcheries*, chapitre 95 des Statuts Revisés du Canada, d'ordonner que le dit arrêté en conseil au 27 de mai 1901, défendant la pêche aux rets dans les lacs St-François et St-Louis, soit et il est par le présent rescindé, et les règlements suivants lui sont substitués :—

Pêcher aux rets de toute sorte dans les eaux des lacs St-François et St-Louis entre une ligne tirée de la limite ouest du comté de Glengarry, dans la province d'Ontario, et le comté de Huntingdon, dans la province de Québec, et une ligne tirée en travers du lac St-Louis, coïncidant avec le pont du chemin de fer Canadien du Pacifique, y compris les eaux de Caughnawaga et Chateauguay, est défendu, sauf, toutefois, dans cette partie du lac St-Louis, en face de la paroisse ou township de Chateauguay, et s'étendant jusqu'au milieu du lac, où pas plus que dix permis de seine pourront être délivrés aux résidents de la susdite paroisse.

Pourvu, toutefois, qu'on ne pourra aucunement seiner durant les mois de juillet et août de chaque année, et qu'aucune pêche aux rets ne sera permise dans la rivière Chateauguay, ou en dedans de deux cents verges, de chaque côté de son embouchure.

JOHN J. McGEE,
46-3 Greffier du Conseil privé.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées

ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 14th day of April, 1903

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS Section 3 of the Regulations governing the granting of yearly licenses to cut timber on Dominion Lands in Manitoba, the North-west Territories, and within the Railway Belt in British Columbia, established by the Order in Council of the 1st of July, 1898, as amended by subsequent Orders in

Council, provides that when a licensee has complied with all the conditions set forth in his license and the Regulations, and where no portion of the timber is required for settlement or other public purpose, of which the Minister of the Interior is to be the judge, the license may be renewed for another year subject to such revision of the annual rental and royalty to be paid therefor as may be fixed by the Governor in Council ;

And whereas representations have been made that the tenure of a license under the provisions above cited is unsatisfactory as no guarantee is given that the license will be renewed, provided the licensee has fully complied with the provisions thereof, and it is considered that an assurance should be given to a licensee that his license will be renewed if he has complied with its conditions ;

Therefore the Governor General in Council is pleased to Order that the said Section 3 of the Regulations governing the granting of licenses to cut timber now in force, shall be, and the same is hereby repealed and the following substituted in lieu thereof :—

"So long as the licensee complies with the conditions of his license and of the regulations, he shall be entitled to a renewal of his license from year to year while merchantable timber remains upon the area licensed. When a substantial portion of the said area has been denuded of timber, the Minister may dispose of the same under sale or settlement regulations, provided that no such disposition shall be made of land immediately contiguous to merchantable standing timber, or in such a way as to endanger destruction thereof by fire."

The Governor General in Council is further pleased to Order that subsection 2 of section 10 of the said Regulations be rescinded, as the provision therein made for the withdrawal of lands from the operation of a license for settlement, is provided for in the above proposed amendment to the Regulations ;

The Governor General in Council is also pleased to order that subsection 9 of section 10 of the above cited Regulations shall be and the same is hereby rescinded and the following substituted in lieu thereof :—

"The license shall be subject to forfeiture for wilful infraction of any of the conditions to which it is subject, or for any fraudulent return, and in such case the Minister of the Interior shall, under the restrictions hereinafter provided, have the right, without compensation to the licensee, to cancel the same and to make a new license or disposition of the said berth to any other party in accordance with these regulations ; provided that the Minister of the Interior, if he sees fit, may refrain from forfeiting such license for non-payment of dues and may enforce payment of such dues in the manner provided by the said Act ; provided further that if the Minister shall decide to exercise the powers of cancellation conferred by this subsection he shall give the licensee three months notice in writing, by mailing the same to the last known place of address of the licensee, and by publishing the said notice not less than once a week during three months in a newspaper published in the Provinces of Manitoba and British Columbia, and publishing said notice also in each issue of the official gazette during a period of three months. If the licensee, within one month after the expiration of the last publication, as aforesaid, disputes the existence of any cause sufficient under this subsection to warrant the cancellation of his license, the question of fact involved shall be referred by the Minister to the Exchequer Court of Canada for report. The report of such Court shall be appealable in like manner as any other decision of the said Court. If the violation of the regulations refers merely to payment of money, the Court may relieve from forfeiture on payment of double the amount found to be due, and costs. Upon the final report from the Court being received, the Minister may proceed in accordance with such finding under this subsection."

JOHN J. McGEE,
Clerk of the Privy Council.

NORTH ATLANTIC OCEAN.

(84) Off the south coast of Newfoundland—Current survey steamer to be avoided.

It is the purpose of the Government of the Dominion of Canada to examine during the present season the currents in that part of the Atlantic ocean washing the south shore of Newfoundland, between Cape Race and the French islands, to ascertain the character and extent of the indraught which is reported to set into the larger bays there.

For this purpose the D. G. S. "Gulnare" will be anchored in deep water on the steamship route at different points along this coast.

Mariners are requested to give the "Gulnare" a safe berth in passing, as she will be unable to

manœuvre ; and she may at times be stationed some miles off the coast ; or in about the same offing as steamships usually keep in passing.

The piers and abutments of the railway bridge under construction over the river St. Lawrence above Quebec, referred to in Part iii of notice to mariners No. 43 of 1901, have been completed. The cantilever piers stand on the edge of the deep water channel on both sides of the river, and at high water might be dangerous to shallow draught vessels. They will in future be marked at night by white lights shown from lens lanterns, one placed over the middle of each pier, at a height of 4 feet above the top of the pier or about 35 feet above high water mark. These lights should be visible 2 miles from all points of approach by water.

The south light is in

BRITISH COLUMBIA.

(64) HEAD OF HOWE SOUND—WHARF—HYDROGRAPHIC NOTES.

A wharf has been built by the Government of British Columbia at the head of Howe sound, which runs northwardly from the strait of Georgia into the mainland of British Columbia.

This wharf extends 7 cables S. 12° W., from the southeast point of the delta at the mouth of Squamish river and its outer end is in 9 feet water. The line of the wharf passes 50 feet to the westward of the snag shown on Admiralty chart No. 579 and the outer end of the wharf is 125 feet outside the snag.

The sand bank extending south from the delta is now twice the width shown on the charts. It dries at low water and its outer edge drops off at once to 5 fathoms ; the dry sand at low water extends to within a few feet of the end of the wharf. As the remains of the snag shown are inside the wharf, and at a point which dries at low tide, it may be removed from the chart.

The name Staamus is not now locally known, but there is a settlement, with a post office, named Squamish on the east side of the east mouth of the river.

(68) HALIFAX HARBOUR—MCNAB ISLAND—GOVERNMENT RIFLE RANGES.

The usual annual notice has been issued by the Chief Staff Officer of the troops in Canada, with reference to the resumption of target practice on McNab island, to begin on 10th May, 1903, as follows :

Owing to the extreme range of the Lee-Metford or magazine rifle, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

This area has been marked by four spar buoys, placed at intervals between the Thrumcap shoal and the eastern passage, at a distance of 3,000 yards from the stop butts. The buoys mark the extreme limits of the danger zone. The spars are painted red, and are surmounted by cross heads painted red and white.

Notice is therefore hereby given that any ship or boat passing inside these buoys, during the hours of practice, incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab island is left flying.

(69) LAKE ST. JOHN—LIGHTS AND BUOYS.

In the summer of 1901 two additional lights and eight spar buoys were established by the Government of Canada in Lake St. John, in the County of Chicoutimi, Quebec, for the benefit of the ferry steamer running between the Government wharves at St. Jérome, St. Gédéon and Rivière à la Pipe.

The lights are shown from pressed glass lens lanterns hoisted on poles, and the buoys are spars bolted to the rocks on the sides of the channel. No particulars respecting the positions or colours of these buoys have been received; they have been placed to suit local traffic.

Rivière à la Pipe light is shown from a pole erected on the Government wharf of that name, on the north side of the lake. This light should be entered in the Canadian list of lights and fog signals, 1903, under the number 1140.

Lat. N. 48° 39′ 14″

The wharf is built on lot 18 in the first range of the Township of Taillon, ¾ mile west of the mouth of the river. It is 463 feet long built out at right angles to the shore; the light is on the southwest corner of the wharf.

The light established on Ile au Bélier, east of Ile Verte, ½ mile northwest from St. Gédéon, is shown from a pole on the southwestern part of the island. The pole is 16 feet high with a small shed at its base. This light should be entered in the Canadian list of lights and fog signals, 1903, under the number 1141.

JOHN J. MCGEE,

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 5e jour de mai 1903.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT qu'il a été représenté que l'arrêté en conseil du 27 de mai 1901, a été d'un avantage considérable aux pêcheries des lacs St-Louis et St-François ; et considérant qu'il a été représenté en outre, qu'une continuation de la prohibition augmenterait essentiellement les bons résultats, mais que les inconvénients résultant de ses effets seraient évités pour certains pêcheurs de la paroisse de Chateauguay si une partie du lac en face de cette paroisse était exceptée des prescriptions du dit arrêté en conseil ;

A ces causes, il plaît au Gouverneur général en conseil, en vertu de l'article 16 de l'*Acte des pêcheries*, chapitre 95 des Statuts Revisés du Canada, d'ordonner que le dit arrêté en conseil au 27 de mai 1901, défendant la pêche aux rets dans les lacs St-François et St-Louis, soit et il est par le présent rescindé, et les règlements suivants lui sont substitués :—

Pêcher aux rets de toute sorte dans les eaux des lacs St-François et St-Louis entre une ligne tirée de la limite ouest du comté de Glengarry, dans la province d'Ontario, et le comté de Huntingdon, dans la province de Québec, et une ligne tirée en travers du lac St-Louis, coïncidant avec le pont du chemin de fer Canadien du Pacifique, y compris les eaux de Caughnawaga et Chateauguay, est défendu, sauf, toutefois, dans cette partie du lac St-Louis, en face de la paroisse ou township de Chateauguay, et s'étendant jusqu'au milieu du lac, où pas plus que dix permis de seine pourront être délivrés aux résidents de la susdite paroisse.

Pourvu, toutefois, qu'on ne pourra aucunement seiner durant les mois de juillet et août de chaque année, et qu'aucune pêche aux rets ne sera permise dans la rivière Chateauguay, ou en dedans de deux cents verges, de chaque côté de son embouchure.

JOHN J. MCGEE,
46-3 Greffier du Conseil privé.

HABILLEMENT.

Nouveaux règlements quant à l'habillement des officiers brevetés, sous-officiers et hommes des troupes canadiennes.

Les paragraphes 42 (4) (5) (6) (7) (8) (9) (10) (11) (12) (17), 45, 58 et 59, partie V, Règlements et Ordres, 1898, sont cancellés.

1. *Tenue de service.*

1. L'adoption d'une tenue de service pour les troupes canadiennes ayant été approuvée, voici comment elle deviendra graduellement en usage.

(*a*) Le modèle actuel d'habillement continuera d'être distribué jusqu'à épuisement des articles en magasin.

(*b*) Les capotes et manteaux du modèle actuel continueront d'être portés jusqu'à ce qu'ils soient usés, ou épuisés.

(*c*) Dans les corps permanents la tenue de service sera distribuée à mesure qu'ils auront droit à leur distribution annuelle en vertu des présents règlements. Dans ce cas il faudra quelque temps avant d'arriver à une uniformité complète, mais les officiers commandants auront la faculté d'autoriser que les premières distributions soient faites aux hommes trois ou quatre mois à l'avance, ce qui permettra d'atteindre plus tôt l'uniformité.

(*d*) Dans la Milice Active la tenue de service ne sera distribuée qu'aux régiments et escadrons au complet, ou autres unités formant un commandement séparé, et alors la distribution sera faite simultanément.

2. *Principe qui gouverne l'introduction de la tenue de service.*

Le principe adopté en introduisant la tenue de service est comme suit :—

(*a*) Munir les troupes permanentes d'une tenue de service en outre d'une tenue de marche et d'un uniforme de cérémonie.

(*b*) Munir les corps urbains d'une tenue de service en outre d'un uniforme de cérémonie.

(*c*) Munir les corps ruraux d'une tenue de service seulement.

3. *Description de la tenue de service.*

Une description de la tenue de service est donnée à l'annexe A.

4. *Détails de l'habillement.*

Les nouveaux détails de l'habillement sont donnés aux annexes B. à G.

5. *Changements nécessités dans tout l'uniforme généralement.*

Les changements suivants devront être faits dans les divers uniformes des troupes, en conséquence de l'introduction de la tenue de service : —

Les chevrons et insignes du grade seront portés sur les deux manches de tous les uniformes.

INSTRUCTEURS DES CORPS D'ÉLÈVES.

Les instructeurs des corps d'élèves attachés à des maisons d'éducation étant membres réguliers du personnel enseignant de ces institutions, tel qu'établi par le par. 139, p. 290, Règlements et Ordres, 1898, auront la faculté de suivre un cours de mousqueterie à l'école canadienne de mousqueterie, pourvu qu'ils soient porteurs d'un certificat d'instructeur d'élèves militaires, et pourvu qu'ils soient recommandés par l'officier commandant du district.

Les instructeurs qui n'ont pas le certificat en dernier lieu mentionné devront en obtenir un, soit séparément, ou en conjonction avec le cours de mousqueterie.

L'instruction pour des certificats d'exercices et de mousqueterie sera fournie à Rockliffe simultanément, et ailleurs, selon les facilités.

Les instructeurs seront considérés comme stagiaires durant le cours de l'instruction, et pourront porter le costume de leur propre corps ou la nouvelle tenue de service, sans insignes de grade.

Les instructeurs, lorsqu'ils possèdent les aptitudes nécessaires en mousqueterie et exercices recevront le grade de second lieutenant dans la milice durant le temps qu'ils continueront à agir en qualité d'instructeurs à des corps d'élèves efficaces.

Après trois ans de service le grade de lieutenant leur sera conféré, et ils pourront aussi compter le temps durant lequel ils ont agi en qualité d'instructeurs comme service méritoire pour la décoration ou la médaille de long service dans les troupes auxiliaires coloniales, pourvu qu'ils aient servi pendant au moins un an comme attaché à un corps de la Milice Active, et qu'ils aient assisté à toutes les revues de ce corps durant cette année-là. A l'avenir les élèves qui sont nommés capitaine, lieutenant ou 2nd lieutenant seront désignés—

Elève capitaine,
Elève lieutenant,
Elève 2nd lieutenant.

ALLOCATIONS, TRANSPORT ET SUBSISTANCE.

Les instructeurs des corps d'élèves qui suivent des cours aux écoles d'instruction seront, quant aux allocations, transport et subsistance, régis par les paragraphes 153, 157, 158, 159, 161 et 162, pages 98-99, Règlements et Ordres, 1898.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

Greffier du Sénat.

Règle spéciale du Sénat.

49. *(c.)* Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

SAML. E. ST. O. CHAPLEAU,
Greffier du Sénat.

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées

ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

THOMAS B. FLINT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

THOMAS B. FLINT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 14th day of April, 1903

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS Section 3 of the Regulations governing the granting of yearly licenses to cut timber on Dominion Lands in Manitoba, the North-west Territories, and within the Railway Belt in British Columbia, established by the Order in Council of the 1st of July, 1898, as amended by subsequent Orders in Council, provides that when a licensee has complied with all the conditions set forth in his license and the Regulations, and where no portion of the timber is required for settlement or other public purpose, of which the Minister of the Interior is to be the judge, the license may be renewed for another year subject to such revision of the annual rental and royalty to be paid therefor as may be fixed by the Governor in Council ;

And whereas representations have been made that the tenure of a license under the provisions above cited is unsatisfactory as no guarantee is given that the license will be renewed, provided the licensee has fully complied with the provisions thereof, and it is considered that an assurance should be given to a licensee that his license will be renewed if he has complied with its conditions ;

Therefore the Governor General in Council is pleased to Order that the said Section 3 of the Regulations governing the granting of licenses to cut timber now in force, shall be, and the same is hereby repealed and the following substituted in lieu thereof :—

"So long as the licensee complies with the conditions of his license and of the regulations, he shall "be entitled to a renewal of his license from year to "year while merchantable timber remains upon the "area licensed. When a substantial portion of the said "area has been denuded of timber, the Minister may "dispose of the same under sale or settlement regulations, provided that no such disposition shall be "made of land immediately contiguous to merchantable standing timber, or in such a way as to endanger "destruction thereof by fire."

The Governor General in Council is further pleased to Order that subsection 2 of section 10 of the said Regulations be rescinded, as the provision therein made for the withdrawal of lands from the operation of a license for settlement, is provided for in the above proposed amendment to the Regulations ;

The Governor General in Council is also pleased to order that subsection 9 of section 10 of the above cited Regulations shall be and the same is hereby rescinded and the following substituted in lieu thereof :—

"The license shall be subject to forfeiture for wilful "infraction of any of the conditions to which it is "subject, or for any fraudulent return, and in such "case the Minister of the Interior shall, under the "restrictions hereinafter provided, have the right, "without compensation to the licensee, to cancel the "same and to make a new license or disposition of "the said berth to any other party in accordance with "these regulations ; provided that the Minister of the "Interior, if he sees fit, may refrain from forfeiting "such license for non-payment of dues and may "enforce payment of such dues in the manner provided "by the said Act ; provided further that if the "Minister shall decide to exercise the powers of cancellation conferred by this subsection he shall give "the licensee three months notice in writing, by mailing the same to the last known place of address of "the licensee, and by publishing the said notice not "less than once a week during three months in a "newspaper published in the Provinces of Manitoba "and British Columbia, and publishing said notice "also in each issue of the official gazette during a "period of three months. If the licensee, within one "month after the expiration of the last publication, as "aforesaid, disputes the existence of any cause sufficient under this subsection to warrant the cancellation of his license, the question of fact involved "shall be referred by the Minister to the Exchequer "Court of Canada for report. The report of such "Court shall be appealable in like manner as any "other decision of the said Court. If the violation of "the regulations refers merely to payment of money, "the Court may relieve from forfeiture on payment "of double the amount found to be due, and costs. "Upon the final report from the Court being received, "the Minister may proceed in accordance with such "finding under this subsection."

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

(86) GULF OF ST. LAWRENCE—FAME POINT—CHANGE IN COLOUR OF LIGHTHOUSE.

The lighthouse tower at Fame point on the south shore of the Gulf of St. Lawrence will, from and after the 1st July, 1903, be changed in colour from white with a black horizontal band as at present to bright red. The lantern roof, gallery and walls of the tower will all be painted the same bright red colour.

This change is being made as an experiment to ascertain whether the building against the green background in the summer time and against the snow in spring and autumn will be more conspicuous than it is at present.

Mariners will confer a favour by reporting to the Chief Engineer of this Department their estimate of the result of this change in colour, stating whether they find it more or less conspicuous than it is at present under varying conditions of light and background, and whether it can be picked up as far as formerly.

(84) OFF THE SOUTH COAST OF NEWFOUNDLAND—CURRENT SURVEY STEAMER TO BE AVOIDED.

It is the purpose of the Government of the Dominion of Canada to examine during the present season the currents in that part of the Atlantic ocean washing the south shore of Newfoundland, between Cape Race and the French islands, to ascertain the character and extent of the indraught which is reported to set into the larger bays there.

For this purpose the D. G. S. "Gulnare" will be anchored in deep water on the steamship route at different points along this coast.

Mariners are requested to give the "Gulnare" a safe berth in passing, as she will be unable to manœuvre ; and she may at times be stationed some miles off the coast ; or in about the same offing as steamships usually keep in passing.

(86) Golfe Saint-Laurent—Pointe de la Renommée—Changement dans la couleur du phare.

La couleur de la tour de phare à la Pointe de la Renommée sur la rive sud du golfe Saint-Laurent sera, à compter du 1er juillet 1903, changée de blanc avec une bande horizontale noire comme à présent à rouge vif. Le toit de la lanterne, le grillage et les murs de la tour seront tous peinturés de la même couleur rouge vif.

Ce changement est fait comme expérience pour s'assurer si le bâtiment contre un fond vert en été et contre la neige le printemps et l'automne sera plus frappant qu'à présent.

Les navigateurs nous obligeront en faisant rapport à l'ingénieur en chef de ce ministère de ce qu'ils pensent de ce changement de couleur, disant s'ils le trouvent plus ou moins apparent qu'il n'est aujourd'qui sous les diverses conditions de lumière et d'arrière-plan, et s'ils peuvent mieux le relever qu'autrefois.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

Greffier du Sénat.

Règle spéciale du Sénat.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

SAML. E. ST. O. CHAPLEAU,
Greffier du Sénat.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées

ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

THOMAS B. FLINT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

THOMAS B. FLINT,

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Magpie.	21 "	40 "	6 ft. square	3 "	Black & White.
Outer ..	Remaind'r of a target 4 ft. square	Remaind'r of a target 6 ft. square	Remaind'r of a target 9 ft. × 6 ft	2 "	Black.

SIGNALLING AND SCORING.

1. If a shot hits the ground in front of a target and then rebounds and hits the target it is a ricochet, and is marked by waving a black disc across the target, it has no value, but is marked on the register by the letter R. No spotting disc will be shown for a ricochet.

2. *Misses* will *not* be signalled; but if a target is lowered under the impression that it has been hit, and no hit is found on the target, after raising it the marker will wave a *black disc* across its face, to signify that the target has not been struck.

3. Any target hit, is lowered for examination, and the position of the hit is shown when the target is again raised, by a *spotting disc* fastened through the bullet hole.

4. When *two* shots strike a target simultaneously, that which has the highest value alone will be signalled, and the person whose proper turn it was to fire at the target will be credited with that shot, provided that he has fired. *Both shots will*, however, be shown with *spotting discs.*

5. If the number of hits counted on a target exceeds the number of shots allowed, the value of the highest shot made will be deducted for every such hit in excess of the number of such shots, unless it be proved that such hits on the target in excess of the number of shots allowed could only have been made by competitors in the squad firing more than the authorized number of rounds, in which case the squad shall be disqualified.

6. The marking may be *challenged* by permission of the Superintending Officer present before any other shot has been fired at the same target. If, on examination, the marking in question is confirmed, the target will be raised without any spotting disc. If on the contrary, the marking proves incorrect the correct value will be signalled in the usual way, and the score altered accordingly.

7. If on a target being raised the *spotting disc* should appear unmistakably to disagree with the *signal disc*, the Register Keeper shall report the circumstances to the Superintending Officer, who shall decide the shot.

8. All claims for shots signalled *must be made before* another shot is fired at the target in question.

9. If a target should be lowered in such a manner as to falsify the result of a shot, the Officer Superintending may permit another shot to be fired in its place.

10. In Rapid fire the tanget is not lowered nor are the shots signalled until the completion of the score.

11. All alterations of the Register must be initialed by the Officer making them.

12. Ties will be decided—

(*a*) If at more than *one* distance, by *the range totals in inverse order, commencing at the longest range.*

(*b*) By the fewest "outers."

(*c*) By the fewest "magpies."
(*d*) By the fewest "inners."
(*e*) By the *value of each shot in inverse order.*

13. The figure of merit of a Rifle Association is to be obtained by dividing the total number of points obtained by the total number of rounds fired; the division should be carried out to two places of decimals.

Rifles.

1. The arm to be used shall be the ·303 rifle, either of Government issue or of *bona fide* Government pattern, and bearing the Government viewers mark.

All Service rifles must comply with the following conditions :—

2. Weight—Including clearing rod, oil bottle, pull through and magazine—not to exceed the greatest weight of the regulation rifle of the corresponding pattern and mark.

3. Length—*Maximum*, measured from the muzzle to the butt when placed vertically on the ground, 49½ in.

4. Stocks—Must not be checkered. No pad or shoe for the heel-plate of the butt is allowed, nor may the butt-plate be checkered.

5. A metal fitting for the sole purpose of the attachment of a match backsight is permitted.

6. Pull of Trigger—Minimum, 6 lbs.

7. Sights—Strictly in accordance with those on any pattern of Government Service rifle.

Safety Precautions.

1. A large Red Danger flag must be kept hoisted in a conspicuous position on the Rifle Range during all practices.

2. Small Red Danger flags will be kept in the markers Butt and also at the Firing Point.

3. On no account is a shot to be fired when a Flag of this description is shown at either the markers Butt or the Firing Point.

2. Private ranges may often be used which do not conform to all these conditions. Target carriages can only be supplied where the use of a range is assured, and where the conditions for safety are satisfactory.

3. In describing a proposed site for a Rifle range a plan and profile should accompany description.

4. The plan should contain full information, 1st, as to all roads and houses for 2,000 yds. behind butts and for 250 yds. on either side of centre line of fire ; 2ndly, Distance and nearest way to Regimental, or Company Head Quarters.

5. The profile should show the levels from the 1,000 yard firing point to the highest point behind the site for the butts. Profiles should be shown about 25 ft. apart and parallel to the centre line of fire about the point where it is proposed to erect the targets.

6. The lie of the land should be shown at this point with a view to draining the trench for the targets, also a statement as to the nature of the soil or rock.

7. The two great sources of expense in a Rifle Range are 1st the Back ground with its margin of safety, and 2ndly the Stop Butt.

8. Where a hill or bank from 60 to 80 feet high can be found both these sources of expense are done away with.

9. The same is true in the case where a swamp or open lake front is the back ground.

10. The next best location is one where there is a bank from 20 to 30 feet high for a Stop Butt immediately behind the targets.

11. A low Stop Butt gives safety enough to allow of cattle grazing anywhere behind it. It ought therefore to be possible to obtain the right to fire over land used for grazing for a small sum, the association undertaking to pay for any loss to stock.

12 Stop Butts and Markers Butts for the protection of the public and the markers when using miniature ranges are cheaply and easily constructed.

13. A few packing boxes filled with gravel or sand for a Markers Butt ; and for a Stop Butt a double thickness of two-inch plank twelve feet high should give ample protection in all ordinary positions.

14. Galleries can often be arranged for in the basements of public buildings, an incandescent electric light should be placed over the target and another over the firing point if possible.

15. Plates I, II and III show dimensions and construction of Markers Butt and uprights for target carriage of the standard description.

16. Targets are constructed by stretching factory cotton, sheeting, or canvas, on light wooden frames of 1″ x 4″ stuff. Thick brown paper is glued or pasted to this packing and a covering of white paper added. The bull's eye is then put on, and the inner, and magpie rings described. No iron nails should be used. The wood for the frames should be clear, and free from knots. Two of the sides are allowed to project to act as legs, these fit into receptacles in the target carriages. Spotting discs are made of thick card board, black on one side and white on the other, a piece of wire twisted is run through a hole in the centre so that it can be hooked in the bullet hole, showing either side as required.

Instructions for Cleaning the Rifle.

1. As soon as possible after firing the last shot, arms should be thoroughly cleaned ; if this is not done without loss of time, rust or erosion will rapidly appear, which will spread and be difficult to remove even if the barrel is not injured.

2. Although a barrel in which rust has been allowed to form may be cleaned so as to appear what may be termed *rag clean*, it may be so pitted or rusted that it would not be *view clean, i.e.*, in a state to be passed by an expert inspector. It is necessary, therefore, that the greatest care should be taken to *prevent* the formation of rust, which can only be done by strictly carrying out the following instructions.

3. No hard substance, such as emery, sand-paper, &c., is ever to be used for cleaning either the outside or inside of the rifle. Care is to be taken to prevent the browning being rubbed off the barrel. *Water should on no account be used.*

4. The bore will at all times be kept slightly oiled. Under no circumstances must it be wiped dry and bright except for inspection of arms *when such inspection takes place in the barrack room.* This barrack room inspection of arms will take place once a week.

To clean the bore.

5. Remove the bolt, oil the gauze of the pull-through well with rifle oil, drop the weight through the bore from the breech, and pull the gauze completely through. Then insert in the loop nearest the gauze a piece of dry flannelette, 4 in. by 2 in., and draw it through the bore as before; the flannelette should never be pulled back when partly through as it would probably jam. It may be necessary to use three or four pieces of flannelette, before the barrel is *rag clean, i.e.*, before the material remains unsoiled after use, but those which are little soiled should be saved for future use. Finally, an oiled piece of flannelette should be drawn through and the bore left oily. When the gauze of the pull-through, in consequence of frequent use, ceases to fit the barrel tightly, narrow strips of flannelette or paper may be inserted, under each side, to increase its diameter. No larger piece of flannelette than 4 in. by 2 in. should ever be used, and it may sometimes be reduced in *width* with advantage. It saves time if two men assist one another, one holding the rifle and the other manipulating the pull-through.

To clean the outside and frictional parts.

6. Wipe the inside of the body and bolt with an oiled rag to prevent rust and remove dirt, then clean the outside of the barrel, and all frictional parts of the bolt and body. To prevent water soaking into the stock and at the same time to give it a polished appearance, it should be well rubbed with oil. Varnish is on no account to be used. Before using the rifle, all dust and sand must be removed, and the frictional parts of the breech action and the bore should be slightly oiled. The chamber and the outside of the rifle should be wiped quite free from oil.

7. Mineral jelly or vaseline is to be used for cleaning the inside of the barrel instead of the special rifle oil formerly issued.

Miscellaneous Instructions as to the care of Arms and Ammunition.

8. A rifle should never be used for carrying weights nor for any unauthorised purpose. Should the muzzle be accidently run into the ground all dirt must at once be removed, for if the rifle be fired with any obstruction in it the barrel would probably burst. On no account should a piece of wood or cork be kept in the muzzle. The foresight must be carefully protected from injury, and when the rifle is in the arm-rack the sight protector should always be kept on. The rifle should never be carried with the leaf of the backsight raised.

9. The oil bottle and pull-through are carried in the butt trap, the pull-through being packed over the former. It is coiled as follows:—Hold the pull-through (loop end) between the forefinger and thumb of the left hand, so that the end falls about 2 in. below the third finger, roll it loosely three times round the first three fingers. Slip the coil off the fingers, and lap it tightly with the remainder of the cord, leaving sufficient to allow the weight to drop easily into the recess in the butt. Push the cord into the trap, leaving the loose end uppermost, drop the weight into the recess and close the trap.

10. The "pull-off" is the amount of pressure required to release the nose of the sear from the full bent of the cocking piece. It should never be heavier than eight or lighter than six lbs. Any defect in the "pull-off" should be remedied by the armourer. The direction of the pull-off is not straight backwards but slightly upwards, across the small of the butt, and the trigger should therefore be pressed accordingly. In using a trigger-tester it should be held in a line diagonally across the butt.

11. The mainspring should never be allowed to remain compressed except when the rifle is loaded. The position of the cocking piece shows when the spring is compressed and when released; in the former case it projects about 1½ in. (carbine 2½ inches) from the rear of the body, and in the latter about half an inch (carbine 1¼ inches).

12. A miss-fire is the non-ignition of the charge and generally arises from one of the following causes:—

(*a*) A defective cap.

(*b*) A defective rifle.

(*c*) A man getting his thumb in the way of the cocking piece and so preventing the striker going forward.

(*d*) In cold weather (10° Fahr.) Rangoon oil becomes thick and causes miss-fires by checking the action of the striker. In such weather Petroleum should be used to clean and lubricate the interior of the bolt.

In the case of (*a*) the cartridge should be tried in another rifle and if it still fails to go off should be reported in accordance with the instructions laid down in the King's Regulations.

In the case of (*b*) the rifle should be examined as to strength of mainspring, protrusion of striker and the fitting of the bolt head to the bolt.

Gallery Target Practice.

1. Before firing with the service cartridge, practice with gallery cartridges is beneficial, as it enables the firer to see for himself the results of errors in aiming, and of want of steadiness in holding the rifle on the mark and in pressing the trigger. The greatest care must be taken at this practice to prevent accidents, as the ammunition is very powerful for its size, both in penetration and range. Its maximum range is about 1600 yds.

2. When using gallery practice ammunition the point of each bullet should be dipped in vaseline just before using, this prevents the rifle from fouling thus improving the shooting and obviating the necessity of cleaning out the barrel during practice.

RIFLE RANGES.

1. *Selection of ground.*—Too much pains cannot be taken in the selection of sites for rifle ranges, in order to protect the public from danger, and to prevent unnecessary expense. While it is impossible to lay down precise rules for every feature of country, the following instructions will be found sufficient for guidance under ordinary circumstances.

2. In selecting a site, it is most important that the range be as accessible as possible. It is essential to secure the right to fire over the ground beyond the targets to the extent required, if it be not desirable to purchase it.

3. *Extent required beyond targets.*—When the site is level, the length of ground behind the targets should be not less than 2,000 yards; less distance, however, will be sufficient if a steep hill rises in rear of the targets; no hard and fast rule as to the distance required behind the targets where the ground is not level can be laid down: each case must be considered on its merits. The margin on either flank should gradually increase from 100 yards at the stop-butts, to 250 yards at 1,000 yards in rear, when the ranges are parallel; but when the ranges converge towards the targets, the breadth required as allowance for the divergence of shots must vary according to the degree to which the ranges are made to converge.

4. *Stop-butt.*—The height of the stop-butt must vary according to the nature of the background: under ordinary circumstances it need not be more than 14 feet high; when firing with a sea, lake or marsh for a background, two feet above the top of the target will be sufficient so as to form a background to the target. If on a plain, and the distance behind the target is not more than 2,000 yards, 25 to 40 feet will be necessary. Care should be taken that the butt projects at least 18 feet beyond the outside edges of the flank targets. The distance of the butt from the canvas targets depends very much upon the nature of the material used for the butt; it should not be less than 50 feet; and 100 feet is much better.

In some cases the targets can be so placed that the nature of the ground immediately in rear of them will render the construction of a stop-butt unnecessary; in which case, to be of use in stopping bullets, and thereby ensuring the safety of the public, the ground immediately in rear should rise at an angle of at least 45°; if at a smaller angle it should be scarped; if this is not done it would, instead of acting as a stop-butt, increase the chance of ricochets, and therefore be unsafe.

5. The minimum distance from centre to centre of targets ought not to be less than—

(*a*) In the case where all classes of targets are used	18 feet.
(*b*) Where 2nd and 3rd class targets are used	14 feet.
(*c*) Where 3rd class targets only can be used	10 feet.

6. The frames should be capable of taking targets of all classes for which the range is available.

7. The markers' butt should be not less than 6 feet 6 inches in height.

8. Ranges should be lettered and targets numbered, from the left.

9. It is advisable to have a shed at each butt, in which the targets, glue, &c., in use, can be stored and minor repairs effected. A workshop should also be provided, wherever possible, in the vicinity of a range, for the construction of, and for necessary repairs to, targets, &c. Telephones will be used wherever possible, on each range.

10. Every range should be accurately measured, the distances marked and indicators sunk nearly flush with the ground, and placed at every 100 yards. A flagstaff should be erected in a conspicuous place, on or near the range, for a large red flag to notify that firing is going on.

PRINCE EDWARD ISLAND.

(89) GULF OF ST. LAWRENCE SHORE—NEW LONDON HARBOUR—CHANNEL CHANGED—OUTER RANGE LIGHT EXTINGUISHED.

During the past winter heavy ice grounded off the entrance to New London harbour, on the north coast of Prince Edward Island; this caused the heavy current running out of the harbour to scour a new channel through the outer bar and to fill up the previously existing channel.

The channel over the bar, with 9½ feet at low water in it, is now close up to the rock reef at Simms' shore, farther to the north-west than that indicated by the range lights. There are now only 6 feet at low water on the bar in the line of range.

It has been found impossible to re-arrange the range lights, so as to indicate the existing crooked channel; the fixed white front light has, therefore, been temporarily extinguished. The fixed red back light is still shown, but is only intended to be used as a coast light.

The buoys at the entrance of the harbour have been changed in place to mark the new channel, and show the best water into the harbour during daylight.

(86) Gulf of St. Lawrence—Fame point—Change in colour of lighthouse.

The lighthouse tower at Fame point on the south shore of the Gulf of St. Lawrence will, from and after the 1st July, 1903, be changed in colour from white with a black horizontal band as at present to bright red. The lantern roof, gallery and walls of the tower will all be painted the same bright red colour.

This change is being made as an experiment to ascertain whether the building against the green background in the summer time and against the snow in spring and autumn will be more conspicuous than it is at present.

Mariners will confer a favour by reporting to the Chief Engineer of this Department their estimate of the result of this change in colour, stating whether they find it more or less conspicuous than it is at present under varying conditions of light and background, and whether it can be picked up as far as formerly.

NORTH ATLANTIC OCEAN.

(84) OFF THE SOUTH COAST OF NEWFOUNDLAND—CURRENT SURVEY STEAMER TO BE AVOIDED.

It is the purpose of the Government of the Dominion of Canada to examine during the present season the currents in that part of the Atlantic ocean washing the south shore of Newfoundland, between Cape Race and the French islands, to ascertain the character and extent of the indraught which is reported to set into the larger bays there.

For this purpose the D. G. S. "Gulnare" will be anchored in deep water on the steamship route at different points along this coast.

Mariners are requested to give the "Gulnare" a safe berth in passing, as she will be unable to manœuvre; and she may at times be stationed some miles off the coast; or in about the same offing as steamships usually keep in passing.

ASSOCIATIONS DE TIR.

O. G. 88.

RÈGLEMENTS POUR 1903.

Des règlements revisés pour la régie des associations de tir sont par le présent autorisés, et tous les règlements antérieurs en force jusqu'à cette date sont en conséquence cancellés.

Règlements concernant les associations de tir.

Les règlements et règles ci-dessous mentionnés pour la formation et la régie des associations de tir, sont promulgués pour la gouverne de tous les intéressés :—

1. Des clubs ou associations civiles de tir en Canada, seront établis sur le pied de la Milice de Réserve—de terre et de mer—telle que définie à l'art. 12 de l'*Acte de la Milice*, 46 V. c. 11, art. 6.

2. Les associations de tir seront divisées en deux classes :—

(*a*) *Militaire*—formée dans les régiments ou compagnies de la Milice Active, et régie par les officiers des unités respectives.

(*b*) *Civile*—formée par des personnes appelées à servir dans la Milice de la Réserve, et qui, comme membres de tout tel club ou association, seront enrôlées dans telle réserve en vertu des art. 19 et 20 de l'*Acte de la Milice*, et cette classe sera régie par les règlements qui seront de temps à autre établis.

3. Les associations de tir organisées en vertu des présents règlements seront sous le contrôle du Ministère de la Milice et de la Défense.

4. L'officier commandant du district sera chargé de l'organisation etc., et soumettra les noms de personnes capables et aptes comme officiers pour aider l'organisation, inspection et administration des associations de tir dans leurs districts respectifs. Ces noms seront transmis à l'officier général commandant pour qu'il les recommande et soumette au Ministre de la Milice et de la Défense.

5. Sur la recommandation du major général com. mandant, des associations de tir seront établies aux endroits jugés les plus avantageux aux troupes, sujet à l'approbation du Ministre de la Milice et de la Défense.

6. Avant qu'une association puisse être formée, il faudra qu'au moins quarante hommes dépassant l'âge de seize ans, domiciliés dans la localité où il est proposé de former l'association, soient enrôlés, et, s'ils ne sont déjà membres de la Milice Active, aient prêté le serment énoncé au paragraphe 8 des présents règlements. Des formules d'enrôlement et autres formules seront fournies sur demande à l'adjudant général à Ottawa. Des doubles de ces formules d'enrôlement, une fois remplis, seront transmis par l'intermédiaire de l'officier commandant du district à l'adjudant général. Chaque association devra maintenir un effectif de quarante membres, sinon elle pourra être dissoute. Mais dans des cas spéciaux, sur la recommandation de l'officier général commandant, l'effectif à maintenir pourra être réduit.

7. L'approbation d'une demande d'établir une association de tir sera publiée dans la *Gazette du Canada*, après quoi l'association pourra être formée.

8. Chaque personne qui sera acceptée comme membre d'une association de tir devra, lors de son admission et avant d'être comptée comme membre effectif, prêter et signer par-devant un juge de paix le serment d'allégeance suivant :—

" Je, A. B., promets et jure sincèrement (ou déclare solennellement) que je serai fidèle et porterai vraie allégeance à Sa Majesté, ses héritiers et successeurs. Ainsi que Dieu me soit en aide."

9. Dans le cas d'urgence nationale, toute personne qui est ou a été dûment enrôlée dans une association de tir en Canada, sera réputée déjà enrôlée dans la Milice de Réserve du Canada.

10. Un capitaine sera nommé à chaque association civile, et ce capitaine, avec l'approbation de l'inspecteur de mousqueterie, et aidé d'un comité de deux membres, gèrera les affaires de l'association.

11. Le capitaine ou un député autorisé par lui correspondra avec l'adjudant général par l'intermédiaire de l'officier commandant du district sur tous les sujets relatifs à l'association.

12. Le capitaine maintiendra l'ordre et la discipline chez les membres de l'association à toutes ses pratiques du tir et autres réunions, et sera responsable à l'officier commandant du district de la bonne exécution de tous ordres et règlements qui seront publiés de temps à autre. Il sera de son devoir spécial de veiller à ce que la pratique du tir soit exécutée avec toutes les précautions possibles en vue de la sûreté du public et de tous les intéressés. Mais il pourra nommer tout membre de l'association pour remplir ce devoir, comme son député, chaque fois qu'il sera empêché d'y assister en personne.

13. Afin d'assurer plus d'uniformité, une série de règles modèles applicables aux associations civiles de tir ont été approuvées et sont annexées aux présents règlements.

14. Les associations pourront se procurer des fusils pour l'usage des membres, sur la réquisition du capitaine accompagnée d'un cautionnement sous la signature de trois membres responsables de garder en sûreté, préserver, et remettre en bon état lorsqu'elles en seront requises tous les fusils qui leur auront été prêtés.

Les fusils qui auront besoin d'être réparés seront renvoyés au magasin militaire le plus proche. Le transport et autres frais seront à la charge de l'association de tir.

15. Aux conditions du cautionnement, 10 fusils pourront être délivrés à chaque association de 40 membres, et 5 fusils en plus pour chaque 20 membres additionnels, jusqu'à ce que la quantité de fusils à présent disponibles pour cette fin soit épuisée.

16. Les comités des associations seront responsables de l'entretien en bon état des armes distribuées en vertu du paragraphe 14, et les soumettront à l'inspection par l'officier commandant du district, lorsqu'ils en seront requis, au moins deux fois par année.

17. Des munitions pour pratique individuelle seront fournies gratis, annuellement, sur la réquisition des capitaines, aux associations militaires, 200 cartouches pour chaque membre; et aux associations civiles, 100 cartouches pour chaque membre; une partie de ces munitions sera dépensée comme suit, sujet à tels changements qui seront trouvés nécessaires afin d'exécuter la pratique, ces changements étant notés dans la colonne des observations.

NOTE.—Pour les règles et le marquage (*voir* page 10).

18. Avant le 31 décembre de chaque année il sera fait au quartier général, sur la formule C. 146, un rapport de cette pratique et aussi un rapport exposant comment le restant de la distribution gratuite des munitions a été dépensé. Ce rapport sera attesté par le plus ancien officier ou capitaine de l'association. Une dépense déraisonnable de ces munitions pourra entraîner la cessation de la distribution gratuite.

19. Des munitions supplémentaires pourront être fournies sur la réquisition du capitaine aux prix suivants; tous les frais de transport seront payés par l'association de tir :—

Lee-Enfield, par mille.....	$15.00
Cartouches de salle, par mille.....	3.00

20. Les réquisitions pour munitions devront être certifiées par le plus ancien officier de l'association dans le cas d'associations militaires, et par le capitaine et le secrétaire-trésorier dans le cas d'associations civiles, en la forme ci-dessous :—

" Je certifie que les munitions demandées ici sont au taux de cartouches par homme pour hommes, qui tous sont actuellement enrôlés dans le et sont *bona fide* membres actifs de l'association."

Toutes les réquisitions pour munitions devront être accompagnées d'un reçu du surintendant de l'arsenal fédéral, Québec, ou de l'intendant des magasins pour le district dans lequel est situé le chef-lieu de l'association de tir, indiquant le nombre d'étuis de cartouches vides reçus, et on devra rendre compte de tout déficit entre le nombre sur le certificat et le nombre qui aurait dû être retourné.

21. Ces réquisitions seront transmises au quartier général par l'entremise de l'officier commandant de district, qui les recommandera s'il est convaincu de leur exactitude.

22. Toutes ces réquisitions seront certifiées par l'inspecteur de mousqueterie avant d'être transmises pour approbation.

23. A la fin de chaque saison, des états complets du tir, montrant comment les munitions reçues ont été dépensées, seront retournés au quartier général par le canal ordinaire.

24. Toutes les associations seront publiées dans la *Gazette* avant qu'une distribution de munitions soit faite.

25. Les coffres vides à munitions et les étuis vides de toutes les cartouches à balle et les étuis des cartouches à blanc du calibre ·303 pouce plein, seront retournés par fret chaque année au surintendant de l'arsenal fédéral à Québec, ou si c'est à l'ouest d'Ontario à l'intendant des magasins à Winnipeg à la plus proche station. Tous les coffres vides, et les étuis d'au moins 90 pour cent des cartouches à la balle et 25 pour cent des cartouches à blanc dépensées, seront retournés.

Les étuis de cartouches seront retournés au magasin dans les coffres vides à munitions, et on aura soin d'enlever les saletés autant que possible; en empaquetant les étuis pour être renvoyés en magasin, on veillera attentivement à ce qu'il ne s'y trouve pas de cartouches chargées, vu que la moindre négligence sous ce rapport pourrait avoir des conséquences graves.

Les associations de tir qui retournent des étuis vides devront mettre le nom de leur association et le nombre de cartouches contenu sur chaque colis afin que crédit puisse être donné à l'association de tir voulue.

26. Une association pourra être dissoute en tout temps pour irrégularités ou pour maladministration.

27. Un model d'affût de cible avec accessoires, sera fourni là où il existe des champs de tir permanents.

28. Là où il n'existe pas de champ de tir du gouvernement, une contribution à raison de une piastre par tête pour une association de 40 membres, et de cinquante centins de plus par tête jusqu'à concurrence de 80 membres, sera accordée pour l'entretien et loyer d'un champ de tir privé. Cette aide sera donnée sujette à la condition que les unités de la milice locale jouiront de toutes facilités pour exécuter leur tir à la cible sur ce champ de tir. Les comptes pour le paiement de ces aides devront être soumis en double le ou vers le 1er de novembre chaque année. Le certificat suivant signé par le capitaine de l'association devra être placé sur la face de chaque compte :—

" Je certifie par le présent que le nombre des membres actifs *bona fide* de cette associations de tir, durant la saison finissant que ce compte est censé couvrir, est de ."

29. Personne ne pourra appartenir à plus d'une association en un seul et en même temps ou retirer des munitions gratuites plus qu'une fois par année.

Sujet à ce qui précède, les officiers et soldats de la Milice Active pourront être attachés à des associations de tir autres que celles formées dans leurs propres régiments.

30. Tout membre pourra résigner en donnant trois mois d'avis par écrit au capitaine de l'association, et une fois sa résignation acceptée, son nom sera rayé de la liste des membres. Ceux qui auront en leur possession quelque propriété du gouvernement devront la remettre en bon état avant que la résignation soit acceptée.

Toute correspondance officielle entre les Associations provinciales de tir et le ministère de la Milice devra se faire par l'entremise de l'officier commandant du district dans lequel l'Association provinciale de tir tient ses concours annuels et son chef-lieu.

CIBLES ET MARQUAGE.

Les cibles seront des dimensions suivantes, et divisées tel qu'indiqué, avec les valeurs des coups touchés dans les diverses divisions. Le marquage se fait au moyen de disques levés lorsque la cible est baissée :—

Divisions.	Dimensions. 3e classe, 200 vgs.	2e classe, 500 et 600 vgs.	1re classe, 800 à 1,000 vgs.	Valeurs.	Couleur du disque.
Noir.. *Bull's... Eye.*	7 pc. diam.	20 pc. diam.	3 pds diam.	5 marques.	Blanc.
Intérieur *Inner.*	14 "	30 "	4½ "	4 "	Rouge.
Pie..... *Magpie.*	21 "	40 "	6 pds carrés	3 "	Noir et blanc.
Extérieur *Outer.*	Restant de la cible, 4 pds carrés.	Restant de la cible, 6 pds carrés.	Restant de la cible, 9 pds x 6 pds	2 "	Noir.

SIGNALER ET COMPTER.

1. Si une balle touche le sol en avant d'une cible, et ensuite reboudit et frappe la cible, c'est un ricochet, et est marqué en agitant un disque noir en travers de la cible ; ce coup n'a pas de valeur, mais est marqué sur le registre par la lettre R. Il n'est pas levé de disque marqueur pour un ricochet.

2. Les coups manqués ne seront pas signalés, mais si une cible est baissée sous l'impression qu'elle a été touchée, et qu'il ne se trouve pas de marque sur la cible, le marqueur, après l'avoir relevée, agitera un *disque noir* sur la face pour signifier que la cible n'a pas été frappée.

3. Toute cible frappée est baissée pour examen, et la position du coup est indiquée lorsque la cible est relevée, par un *disque marqueur* fixé dans le trou de balle.

4. Lorsque deux balles frappent une cible simultanément, celle qui a la plus grande valeur sera seule signalée, et l'individu dont c'était le tour de tirer recevra le crédit de ce coup, pourvu qu'il ait tiré. *Les deux coups*, toutefois, seront indiqués par des *disques marqueurs*.

5. Si le nombre de coups comptés sur une cible dépasse le nombre de coups alloués, la valeur du meilleur coup sera déduite pour chaque coup de trop, à

moins qu'on ne prouve que cet excédent de coups sur la cible est dû à ce que des concurrents dans le peloton ont tiré plus de cartouches que le nombre autorisé, auquel cas le peloton sera exclu.

6. Le marquage peut être *protesté* par permission de l'officier en charge avant qu'un autre coup soit tiré à la même cible. Si, après vérification, le marquage en question est confirmé, la cible sera levée sans aucun disque marqueur. Si, au contraire, le marquage est incorrect, la valeur correcte sera signalée de la manière ordinaire, et le marquage changé en conséquence.

7. Si lorsqu'une cible est levée le *disque marqueur* est évidemment en désaccord avec le *disque-signal*, la teneur du registre fera rapport du fait à l'officier en charge, qui décidera du coup.

8. Toutes réclamations pour coups signalés *doivent être faites avant* qu'un autre coup soit tiré à la cible en question.

9. Si une cible est baissée de manière à falsifier le résultat d'un coup, l'officier en charge pourra permettre qu'un autre coup soit tiré pour le remplacer.

10. Dans le tir rapide la cible n'est pas baissée, ni les coups signalés tant que le tir n'est pas fini.

11. Tous changements dans le registre doivent être parafés par l'officier qui les fait.

12. Les points égaux seront décidés—

(*a*) Si à plus qu'*une* distance, par les *totaux du tir en ordre inverse, commençant à la plus longue distance.*

(*b*) Par le plus petit nombre d' "extérieurs."

(*c*) Par le plus petit nombre de "pies."

(*d*) Par le plus petit nombre d' "intérieurs."

(*e*) Par la *valeur de chaque coup par ordre inverse.*

13. Le chiffre de mérite d'une association de tir s'obtient en divisant le nombre total de points obtenus par le nombre total de cartouches tirées ; la division doit être continuée jusqu'à deux rangs de décimales.

FUSILS.

1. L'arme employée sera le fusil à répétition ·303 distribué par le gouvernement ou du vrai modèle du gouvernement, et portant la marque de l'inspecteur du gouvernement.

Tous les fusils de service devront remplir les conditions suivantes :—

2. POIDS—Y compris la baguette, la bouteille à l'huile, le *pull through* et le magasin—ne doit pas excéder le plus grand poids du fusil d'ordonnance du même modèle et marque.

3. LONGUEUR—Maximum, mesurée de la bouche à la crosse lorsque placé verticalement à terre, 49½ pouces.

4. MONTURE—Ne doit pas être marquetée. Ni tampon ni sabot pour la plaque du talon de la crosse n'est permis ; la plaque de la crosse ne doit pas être marquetée non plus.

5. Une garniture de métal pour attacher une hausse de concours est permise.

6. RÉSISTANCE DE LA DÉTENTE.—Minimum, 6 livres.

7. MIRES.—Strictement conformes aux modèles du fusil d'ordonnance.

PRÉCAUTIONS DE SURETÉ.

1. Un grand pavillon rouge doit être tenu hissé dans un endroit bien visible sur le champ de tir pendant toutes les pratiques.

2. De petits pavillons rouges doivent être gardés dans la butte du marqueur et aussi au point de tir.

3. On ne doit jamais tirer lorsqu'un pavillon de ce genre est montré, soit à la butte du marqueur ou au point de tir.

INSTRUCTIONS POUR DEMANDER LA FORMATION D'UNE ASSOCIATION DE TIR, RÉQUISITIONNER DES FUSILS ET DES MUNITIONS.

Complétez et remplissez tel que requis les formules et le cautionnement ci-dessous :—

1. Demande, formule de Milice C. 143.

2. Enrôlement ou rôles de service en double, formule de Milice C. 138. Le secrétaire en retiendra une copie.

3. Cautionnement, formule du gouvernement. Les fusils seront évalués à $25 chacun.

4. Réquisition en double pour la sortie des fusils du magasin. Formule n° 3, S. B.

5. Réquisition en double pour la livraison de munitions du magasin, formule n° 3, S. B. Le certificat exigé par le par. 20 doit y être attaché et dûment signé.

6. Ces papiers doivent être envoyés à l'officier commandant du district, pour sa recommandation, et transmis par lui au quartier-général, Ottawa.

7. Les communications des associations de tir dans les Territoires du Nord-Ouest seront envoyées par la voie de l'officier commandant de district à Winnipeg.

8. Les associations militaires ne sont pas obligées d'envoyer de rôles de service, formule 138 ; de cautionnement ; ni de réquisition pour fusils.

NOTE.—Dans le cas d'associations militaires, le nom doit indiquer du corps auquel appartient l'association.

9. En demandant des munitions contre remboursement, l'argent ou les chèques ne doivent pas être envoyés, mais déposés dans une banque à charte au crédit du Receveur général, et un récépissé de dépôt mis sous pli avec la réquisition.

CHAMPS DE TIR ET CIBLES.

1. La demande de champs de tir et d'affûts de cible doit faire le sujet d'une communication distincte. Une description de la formule-modèle de champ de tir est donnée, voir page 19 et tableau IV.

2. On peut souvent se servir de champ de tir privés qui ne remplissent pas toutes ces conditions. Les affûts de cible ne peuvent être fournis que dans le cas où l'usage d'un champ de tir est assuré et que les conditions de sûreté sont satisfaisantes.

3. En désignant l'emplacement projeté d'un champ de tir, un plan et un profil doivent accompagner la description.

4. Le plan doit contenir un renseignement complet, 1° quant à tous les chemins et maisons à 2,000 verges en arrière des buttes et à 250 verges de chaque côté de la ligne centrale de tir ; 2° la distance et le plus court chemin aux chefs-lieux régimentaires ou de compagnie.

5. Le profil devra indiquer les niveaux depuis le point de tir à 1,000 verges jusqu'au point le plus élevé en arrière des buttes. Des profils doivent aussi être indiqués à environ 25 pieds d'intervalle et parallèles à la ligne centrale de tir près du point où il est proposé d'ériger les cibles.

6. Le mouvement du terrain doit aussi être indiqué à ce point en vue d'égoutter la tranchée pour les cibles, aussi un état touchant la nature du sol ou roc.

7. Les deux grandes sources de dépenses dans un champ de tir sont 1° l'arrière-plan avec sa marge de sûreté, et 2° la butte.

8. Là où il se trouve une côte ou berge de 60 à 80 pieds de hauteur, ces deux sources de dépenses sont évitées.

9. Il en est de même quand l'arrière-plan est un marécage ou un lac.

10. Le meilleur emplacement ensuite est une berge de 20 à 30 pieds de hauteur pour une butte immédiatement en arrière des cibles.

11. Une butte basse est assez sûre pour permettre aux animaux de pâturer en arrière. En conséquence il est possible d'obtenir, pour une faible somme le droit de tirer au-dessus d'un terrain servant au pâturage, l'association se chargeant de payer tout dommage au bétail.

12. Les buttes pour la protection du public et des marqueurs, quand on se sert de champs de tir en réduction, peuvent être construites facilement et à bon marché.

13. Quelques caisses d'emballage remplies de gravier ou de sable pour un abri de marqueur, et pour une butte deux épaisseurs de planche de deux pouces, douze pieds de haut, offriront une protection suffisante dans toutes les positions ordinaires.

14. On peut souvent arranger des salles de tir dans les soubassements des édifices publics, une lumière électrique incandescente étant placée au-dessus de la cible et une autre au-dessus du point de tir si possible.

15. Les planches I, II, et III indiquent les dimensions et la construction d'un abri de marqueur et les montants pour l'affût de cible du type modèle.

16. Les cibles sont construites en étendant une pièce de coton ou de toile sur un cadre en bois de 1″ sur 4″. Du fort papier brun est collé sur cette toile

et recouvert de papier blanc. Le noir (bull's eye) est alors posé, et les cercles de l'*inner* et du *magpie* tracés. On ne doit pas employer de clous. Le bois du cadre doit être sain et sans nœuds. Deux des côtés peuvent projeter pour servir de pieds, ces derniers s'ajustant dans l'affût de la cible. Les disques marqueurs sont faits de gros carton, noir d'un côté et blanc de l'autre, un morceau de fil de fer tordu passe dans un trou au centre de façon à pouvoir être accroché dans le trou de la balle, faisant voir l'un ou l'autre côté du disque, à volonté.

17. *Prix approximatif des accessoires d'une cible en toile.*

INSTRUCTIONS POUR NETTOYER LE FUSIL.

1. Aussitôt que possible après avoir tiré le dernier coup, l'arme doit être nettoyée complètement ; si cela n'est pas fait sans perte de temps, la rouille ou l'érosion apparaîtront bientôt et se propageront, et il deviendra difficile de les faire disparaître, même si le canon n'est pas endommagé.

2. Bien qu'un canon dans lequel on a laissé la rouille se former puisse être nettoyé de façon à paraître ce qu'on appelle *linge-net*, il peut être tellement gravé ou rouillé qu'il ne soit pas *net à l'œil*, c'est-à-dire dans un état satisfaisant pour un inspecteur expert. Il est donc nécessaire, que les plus grands soins soient pris pour prévenir la formation de la rouille, ce qui ne peut être fait qu'en suivant à la lettre les instructions suivantes.

3. Pour nettoyer soit le dedans soit le dehors du fusil, on ne doit jamais se servir de substance dure, telle que l'éméri, le papier sablé, etc. On doit prendre garde d'enlever le bronzage du canon. *On ne doit dans aucun cas se servir d'eau.*

4. L'âme doit toujours être légèrement huilée. On ne doit jamais la sécher complètement ni la polir, sauf pour l'inspection de l'arme *quand cette inspection a lieu dans la caserne.* Cette inspection des armes dans la caserne aura lieu une fois la semaine.

Pour nettoyer l'âme.

5. Enlevez le verrou, huilez bien la gaze du passe-linge avec de l'huile à fusil, laissez tomber le poids dans le canon, par la culasse, et tirez la gaze d'un bout à l'autre du canon. Puis insérez dans l'œillet le plus rapproché de la gaze un morceau de flanellette sèche de 4 pouces par 2 pouces et passez-le dans le canon comme auparavant ; la flanellette ne doit jamais être repoussée quand elle est partiellement dans le canon car elle pourrait se masser. Il peut être nécessaire de se servir de trois ou quatre morceaux de flanellette, avant que le canon soit linge-net, c'est-à-dire, avant que le linge reste net après avoir servi, mais ceux qui ne sont que peu salis devraient être conservés pour usage ultérieur. Enfin, un morceau de flanellette huilé doit être passé dans le canon et le laisser huilé. Quand la gaze du passe-linge, à cause d'un fréquent usage, cesse de passer serrée dans le canon, on peut insérer, sous chaque côté, de petites bandes de flanellette ou de papier pour augmenter son diamètre. On ne doit jamais employer un morceau de flanellette plus grand que 4 pouces sur 2 pouces, et quelquefois la largeur peut être réduite avec avantage. On sauvera du temps si deux hommes s'aident l'un et l'autre, l'un tenant le fusil et l'autre manipulant le passe-linge.

Nettoyer l'extérieur et les parties de frottement.

6. Essuyez l'extérieur du corps et le verrou avec un linge huilé pour empêcher la rouille et enlever les saletés, ensuite nettoyez l'extérieur du canon, et toutes les parties de frottement du verrou et du corps. Pour empêcher l'eau de s'imbiber dans la monture et en même temps lui donner un poli, il faut la bien frotter avec de l'huile. On ne doit jamais se servir de vernis. Avant de se servir du fusil, toute la poussière et le sable doivent être enlevés, et les parties de frottement de l'action de la culasse et l'âme doivent être légèrement huilées. L'huile doit être complètement enlevée de la chambre et de l'extérieur du fusil.

7. Pour nettoyer l'intérieur du canon, on doit se servir de la gelée minérale ou vaseline au lieu de l'huile spéciale à carabine autrefois distribuée.

Instructions diverses quant au soin des armes et des munitions.

8. Un fusil ne doit jamais servir à porter des fardeaux, ni être employé à aucune fin non autorisée. Si par accident la bouche est enfoncée dans le sol, il faut immédiatement en enlever toute saleté, car si le fusil était tiré lorsqu'il y a quelque obstruction dans le canon, il éclaterait probablement. Il ne faut pour aucune raison garder un morceau de bois ou un bouchon dans la bouche. Le guidon doit être soigneusement protégé, et lorsque le fusil est dans le râtelier, le protecteur du guidon doit toujours être gardé dessus. Le fusil ne doit jamais être porté avec la hausse à curseur levée.

9. La bouteille à l'huile et le passe-linge sont portés dans la boîte de la crosse, le passe-linge étant posé par-dessus. Il est roulé comme suit :—Prenez le passe-linge (le bout de l'œillet) entre entre l'index et le pouce de la main gauche, de façon que l'extrémité pende environ deux pouces plus bas que le troisième doigt, roulez le lâchement trois fois autour des trois premiers doigts ; glissez le repli hors des doigts et liez-le fortement avec le reste de la corde, en en laissant assez long pour permettre au poids de se loger facilement dans la boîte de la crosse. Pressez la corde dans la boîte, laissant le bout libre en dessus, laissez tomber le poids dans la boîte et fermez-la.

10. Le "pull-off" est la somme de pression requise pour dégager le bec de la gâchette de toute la tension du chien. Il ne doit jamais être plus fort que huit livres ni plus faible que six. Tout défaut dans le "pull-off" doit être corrigé par l'armurier. La direction du "pull-off" n'est pas droit en arrière mais légèrement en montant, en travers de la poignée, et la détente doit être pressée en conséquence. En se servant de la touche de détente elle doit être tenue en ligne diagonalement en travers de la crosse.

11. Le grand ressort ne doit jamais rester comprimé sauf lorsque le fusil est chargé. La position de la détente fait voir quand le ressort est comprimé et quand relâché ; dans le premier cas il projette environ $1\frac{1}{2}$ pouces (mousqueton $2\frac{1}{2}$ pouces) d'en arrière du corps, et dans le dernier cas environ un demi-pouce (mousqueton $1\frac{1}{4}$ pouce).

12. Un faux feu est la non-ignition de la charge, et provient généralement de l'une des causes suivantes :

(*a*) Une capsule défectueuse.

(*b*) Un fusil défectueux.

(*c*) Un homme mettant son pouce entre le chien et le marteau, et l'empêchant ainsi de fonctionner.

(*d*) En temps froid (10° Fahr.) l'huile de rangoon s'épaissit et cause des faux feux en retardant l'action du marteau. Dans cette temperature-là on doit employer le pétrole pour nettoyer et lubrifier l'intérieur du verrou.

Dans le premier cas (*a*) la cartouche doit être essayée dans un autre fusil, et si elle ne part pas, la chose doit être rapportée conformément aux instructions posées dans les Ordonnances du Roi.

Dans le second cas (*b*) le fusil doit être examiné quant à la force du grand ressort, la saillie du marteau et l'ajustement de la tête du verrou au verrou.

PRATIQUE AVEC DES CARTOUCHES DE SALLE DE TIR.

1. Avant de tirer avec les cartouches de service, il est bon de pratiquer avec des cartouches de salle, vu que cela permet au tireur de voir par lui-même les résultats des erreurs en visant, et du défaut de fermeté en tenant le fusil sur le but et en pressant la détente. On prendra le plus grand soin à cet exercice pour prévenir les accidents, la cartouche étant très puissante tant en force de pénétration qu'en portée. Sa portée maximum est d'environ 1,600 verges.

2. Lorsque l'on se sert des munitions de salle, la pointe de chaque balle doit être trempée dans de la vaseline juste avant de s'en servir, ceci empêche le fusil de s'encrasser, améliorant ainsi le tir et obviant à la nécessité de nettoyer le canon durant la pratique.

CHAMPS DE TIR.

1. *Choix du terrain.*—On ne saurait prendre trop de soins dans le choix de sites pour champ de tir, afin de protéger le public de tout danger et de prévenir toute dépense inutile. Bien qu'il soit impossible d'établir des règles précises convenant à chaque endroit différent, les instructions suivantes seront jugées suffisantes dans les circonstances ordinaires.

2. Dans le choix d'un site, il est de la plus grande importance que l'endroit soit aussi facile d'accès que possible. Il est essentiel d'obtenir le droit de tirer au dessus du terrain en arrière des cibles, s'il n'est pas opportun de l'acheter.

3. *Etendue nécessaire en arrière des cibles.*—Quand le site est de niveau uniforme, la longueur de terrain en arrière des cibles ne devrait pas être moindre que 2,000 verges ; cependant, une distance moindre sera suffisante si une colline abrupte s'élève en arrière des cibles ; on ne peut établir de règle sévère et rigide concernant la distance nécessaire en arrière des cibles là où le terrain n'est pas d'un niveau uniforme, chaque cas doit être jugé selon ses mérites. Quand les lignes de tir sont parallèles la marge de chaque côté devrait augmenter graduellement de 100 verges aux buttes, à 250 verges mille verges en arrière ; mais quand les lignes de tir convergent vers les cibles, la largeur requise pour la divergence des balles doit varier d'après le degré suivant lequel les lignes de tir convergent.

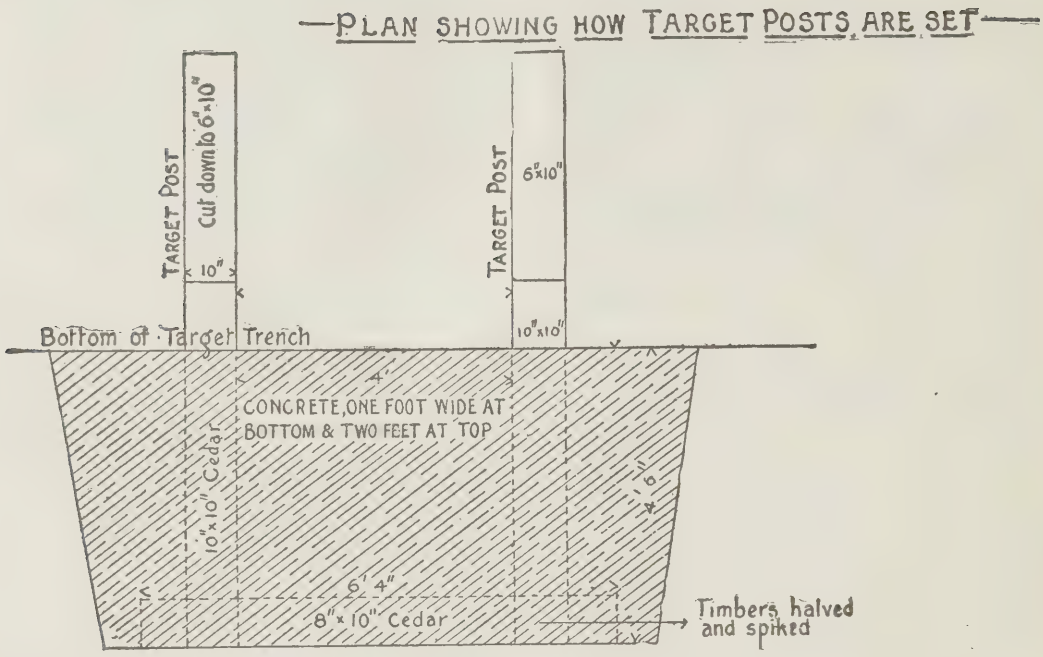
4. *Butte.*—La hauteur de la butte doit varier selon la nature du terrain à l'arrière-plan : dans des circonstances ordinaires elle ne doit pas être de plus de 14 pieds de haut ; si les balles sont tirées vers la mer, un lac ou un marais, deux pieds au-dessus du sommet de la cible seront suffisants pour former un arrière-plan à la cible. Si c'est sur plaine, et que la distance en arrière de la cible n'excède pas 2,000 verges, 25 à 40 pieds seront nécessaires. On devra s'assurer que la butte dépasse d'au moins 18 pieds les bords extérieurs des cibles de flanc. La distance de la butte des cibles en toile dépend beaucoup du matériel employé pour les buttes ; elle ne devrait pas être moindre que 50 pieds ; et 100 pieds seraient de beaucoup préférables.

Dans certains cas les cibles peuvent être placées de manière à ce que la nature du terrain en arrière rendra inutile la construction d'une butte ; dans ce cas, afin qu'elle soit utile pour arrêter les balles et assurer ainsi la sûreté du public, le terrain adossant immédiatement la butte devra s'élever à un angle d'au moins 45° ; si l'angle est moindre il devra être escarpé ; si ceci n'est pas fait, le terrain, au lieu d'agir comme une butte de protection, augmenterait plutôt la chance des ricochets et serait, par conséquent, dangereux.

5. La distance minimum entre le centre d'une cible et celui d'une autre ne doit pas être moins de—

(*a*) Dans le cas où on se sert de cibles de toutes classes	18 pieds.
(*b*) Là où les cibles sont de deuxième classe	14 "
(*c*) Là où les cibles sont toutes de troisième classe	10 "

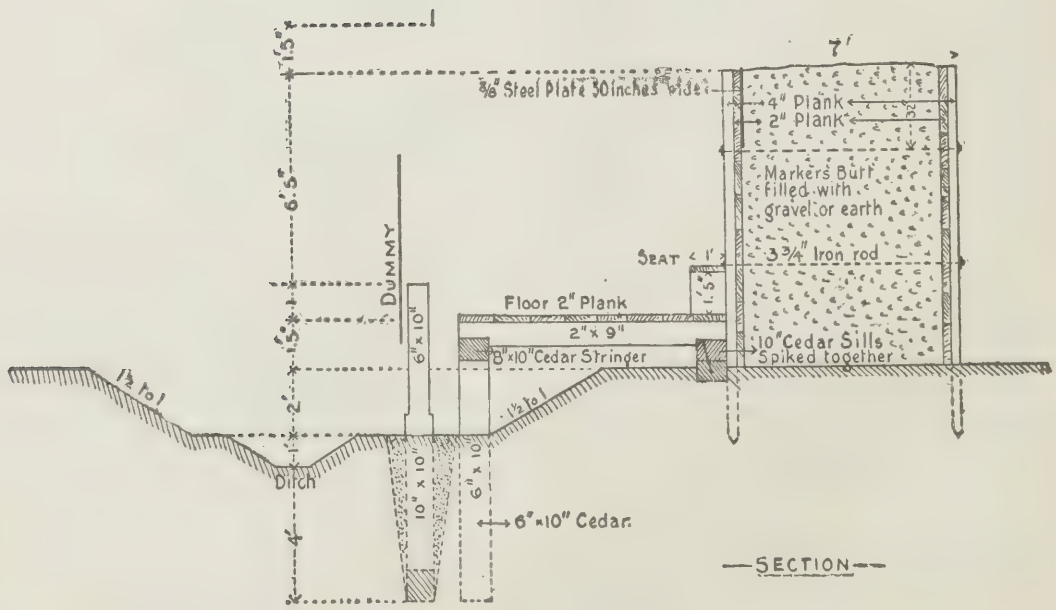
6. Les cadres devront pouvoir porter des cibles de toutes les classes dont on devra se servir.



7. L'abri des marqueurs ne devra pas avoir moins de 6 pieds 6 pouces de hauteur.

8. Ces champs devront être marqués d'une lettre et les cibles numérotées, en commençant à gauche.

9. Il est utile d'avoir un hangar près de chaque abri, afin d'emmagasiner les cibles, la colle, etc, dont on se sert, ainsi que pour faire les réparations faciles. On devrait aussi avoir une boutique, quand c'est possible, près du champ de tir, pour la construction et la réparation des cibles, etc. A tout champ de tir on devra, autant que possible se servir de téléphones.



10. Tout champ de tir devra être soigneusement mesuré, les distances marquées et des indicateurs plantés presque au ras de terre, à tous les 100 verges. Un mât de pavillon devra être placé dans un endroit en vue, sur le champ ou près de là, afin qu'un grand pavillon rouge puisse indiquer quand on tire.

QUÉBEC.

(86) GOLFE SAINT-LAURENT—POINTE DE LA RENOMMÉE—CHANGEMENT DANS LA COULEUR DU PHARE.

La couleur de la tour de phare à la Pointe de la Renommée sur la rive sud du golfe Saint-Laurent sera, à compter du 1er juillet 1903, changée de blanc avec une bande horizontale noire comme à présent à rouge vif. Le toit de la lanterne, le grillage et les murs de la tour seront tous peinturés de la même couleur rouge vif.

Ce changement est fait comme expérience pour s'assurer si le bâtiment contre un fond vert en été et contre la neige le printemps et l'automne sera plus frappant qu'à présent.

Les navigateurs nous obligeront en faisant rapport à l'ingénieur en chef de ce ministère de ce qu'ils pensent de ce changement de couleur, disant s'ils le trouvent plus ou moins apparent qu'il n'est aujourd'qui sous les diverses conditions de lumière et d'arrière-plan, et s'ils peuvent mieux le relever qu'autrefois.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

Greffier du Sénat.

THOMAS B. FLINT,
Greffier des Communes.

—

Règle spéciale du Sénat.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

SAML. E. ST. O. CHAPLEAU,
Greffier du Sénat.

—

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées

ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

THOMAS B. FLINT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

THOMAS B. FLINT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

QUEBEC.

(99) River St. Lawrence—Ship channel between Quebec and Montreal—Contrecœur to Varennes—Changes in buoyage.

In connection with the straightening and widening of the 30-foot ship channel between Contrecœur and Varennes, the buoys maintained by this Department required re arrangement to suit the improvements. Most of this work was done on the opening of navigation in 1902, as indicated in notice to mariners No. 25 (86) of 1902. Particulars of the changes made have only now been obtained.

NOTICE TO MARINERS.

(*Atlantic Notice No.* 24.)

All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

NEW BRUNSWICK.

(100) NORTHUMBERLAND STRAIT—RICHIBUCTO HARBOUR ENTRANCE—SOUTH BEACH—RANGE LIGHTS CHANGED.

The channel through the bar across the entrance to Richibucto harbour having been shifted, by the winter gales and action of the ice, the bar range lights have been changed to suit the same.

The back light of this range has been removed to the tower used from 1895 to 1900 as the back range tower of the old bar range. (See notice to mariners No. 13 of 1895.)

The light is a fixed white light, elevated 44 feet above high water mark, and should be visible 12 miles in the line of range. The illuminating apparatus is catoptric.

The tower is of wood, with an open frame, surmounted by an enclosed square lantern, and is painted white. It is 43 feet high from the ground to the ventilator on the lantern. It stands on the south shore of the south beach, 2760 feet N. 54° W. from where the back mast of the bar range stood last year, and 325 feet S. 64° W. from the old tower with dwelling attached, used previous to 1900 for the front light of the bar range.

The front light is shown from a pressed glass lens lantern hoisted on a mast on the north side of the south beach :

Lat.	N.	46°	42′ 41″
Long.	W.	64	46 16

It is 130 feet back from the water's edge, and is distant 366 feet N. 81° E from the back range lighthouse. It is distant 100 feet, S. 39° E from the middle of the old front range lighthouse tower ; and bears S. 38° E., distant 5700 feet from the outer end of the breakwater on the north beach.

The light is a fixed white light, elevated 32 feet above high water mark, and should be visible 10 miles.

There is a depth of 10 feet over the bar in the best water.

The two masts from which the bar range lights were shown last year, half a mile eastward of the present bar range lights, have been removed ; the old tower used for the back light of the bar range previous to 1895 has been taken down ; but the old tower with dwelling attached, used up to 1900 for the front light of the bar range still stands, being utilized as a dwelling, though no light is shown from it.

The back light of the channel range has been moved and is now located 472 feet from the front light. In other respects the range is unchanged.

The two bar range lights in one lead to the black can buoy at the entrance to the channel ; they should be kept in one until the alignment of the channel

range lights on the western end of the south beach come into one. These two lights should then be kept in one for $\frac{4}{5}$ mile until the first black spar buoy is reached. From this point up to the town the channel is tortuous and is marked by buoys. It is reported that the best water on the Jib Sheet, as the turn north of the channel range lights is locally called, is not more than $9\frac{1}{2}$ feet.

PRINCE EDWARD ISLAND.

(89) GULF OF ST. LAWRENCE SHORE—NEW LONDON HARBOUR—CHANNEL CHANGED—OUTER RANGE LIGHT EXTINGUISHED.

During the past winter heavy ice grounded off the entrance to New London harbour, on the north coast of Prince Edward Island ; this caused the heavy current running out of the harbour to scour a new channel through the outer bar and to fill up the previously existing channel.

The channel over the bar, with 9½ feet at low water in it, is now close up to the rock reef at Simms' shore, farther to the north-west than that indicated by the range lights. There are now only 6 feet at low water on the bar in the line of range.

It has been found impossible to re-arrange the range lights, so as to indicate the existing crooked channel ; the fixed white front light has, therefore, been temporarily extinguished. The fixed red back light is still shown, but is only intended to be used as a coast light.

The buoys at the entrance of the harbour have been changed in place to mark the new channel, and show the best water into the harbour during daylight.

(88) River St. Lawrence—Ship channel between Montreal and Quebec—Lake St. Peter—Dredging—Warning.

A great many poles were placed in Lake St. Peter during the past winter to mark the limits of dredging to be done this season.

These poles mark the edges of the channel as it is to be improved, and not the banks of the present channel.

Pilots must, therefore, be careful not to use these poles as aids to navigation.

The edges of the existing channel are marked by the buoys maintained by this Department.

(86) Gulf of St. Lawrence—Fame point—Change in colour of lighthouse.

The lighthouse tower at Fame point on the south shore of the Gulf of St. Lawrence will, from and after the 1st July, 1903, be changed in colour from white with a black horizontal band as at present to bright red. The lantern roof, gallery and walls of the tower will all be painted the same bright red colour.

This change is being made as an experiment to ascertain whether the building against the green background in the summer time and against the snow in spring and autumn will be more conspicuous than it is at present.

Mariners will confer a favour by reporting to the Chief Engineer of this Department their estimate of the result of this change in colour, stating whether they find it more or less conspicuous than it is at present under varying conditions of light and background, and whether it can be picked up as far as formerly.

Un grand nombre de poteaux ont été placés dans le lac St. Pierre durant l'hiver dernier pour marquer les limites du dragage à faire cette saison.

Ces poteaux indiquent les bords du chenal tel qu'il doit être amélioré, et non les bords du chenal actuel.

En conséquence les pilotes doivent avoir soin de ne pas se servir de ces poteaux comme aides à la navigation.

Les bords du chenal actuel sont marqués par les bouées entretenues par ce ministère.

QUÉBEC.

(86) GOLFE SAINT-LAURENT—POINTE DE LA RENOMMÉE—CHANGEMENT DANS LA COULEUR DU PHARE.

La couleur de la tour de phare à la Pointe de la Renommée sur la rive sud du golfe Saint-Laurent sera, à compter du 1er juillet 1903, changée de blanc avec une bande horizontale noire comme à présent à rouge vif. Le toit de la lanterne, le grillage et les murs de la tour seront tous peinturés de la même couleur rouge vif.

Ce changement est fait comme expérience pour s'assurer si le bâtiment contre un fond vert en été et contre la neige le printemps et l'automne sera plus frappant qu'à présent.

Les navigateurs nous obligeront en faisant rapport à l'ingénieur en chef de ce ministère de ce qu'ils pensent de ce changement de couleur, disant s'ils le trouvent plus ou moins apparent qu'il n'est aujourd'qui sous les diverses conditions de lumière et d'arrière-plan, et s'ils peuvent mieux le relever qu'autrefois.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

(106) GEORGIAN BAY—MEAFORD—LIGHTS—DESCRIPTION OF HARBOUR.

The illuminant used in the lighthouse on the outer end of the breakwater on the west side of the entrance to Meaford harbour, south shore of Georgian bay, Ontario, was on 1st May, 1903, changed from coal oil to electricity, and increased in intensity. The character of the light will not, however, be changed. It will remain as heretofore, fixed white.

The maintenance of the pole light established by the corporation of the town on the east breakwater pier, as described in notice to mariners No. 45 (164) of 1902, will hereafter be assumed by the Canadian Government, and the light was, on 29th May, 1903, changed from an oil light to an incandescent electric light. It shows a fixed bright light from a 32-candle power lamp placed in a lantern hoisted on a pole at an elevation of 14 feet above the level of the water, and standing two feet from the extremity of the east breakwater.

In the event of the failure of either of these electric lights, an oil light will temporarily replace it.

During the past season the following improvements have been made in this harbour :—

The eastern breakwater has been extended north 300 feet to a point, 170 feet outside the extremity of the west pier.

A length of 30 feet has been taken off the end of "L" on the western breakwater, so as to increase the width of the entrance into the basin between the breakwater to 125 feet.

The entrance has been dredged to a depth of 20 feet throughout. The width of the dredging at the outer end of the east breakwater is 200 feet, and at the large elevator, which has been erected on the east shore of the harbour, 900 feet.

The structure is a white octagonal, one-story wooden building, with a brown, pyramidal roof, surmounted by a white, octagonal tower, with a cylindrical lantern having a black roof.

Two oil-houses, three dwellings, a barn and a boat-house, each painted white with brown roof, are all located to the eastward of the lighthouse.

A pole light, established by the Government of Canada in the settlement of Sapin point, at the north extremity of Kouchibouguac bay, on the Gulf of St. Lawrence shore of New Brunswick, was put in operation on the 28th May, 1903, and will hereafter be maintained whenever fishing operations are being conducted in the neighbourhood.

Lat. N. 46° 58′ 19″
Long. W. 64 50 0

The light is fixed white, shown from a seventh order lens lantern hoisted on a pole. It is elevated 50 feet above high water mark and should be visible 12 miles from all points of approach by water.

The pole is painted white, is 34 feet high, and has a white wooden shed at its base. It stands 50 feet back from the edge of the sandstone cliff which forms the shore ; between Messrs. Loggie's lobster factory and the Roman Catholic church, or about midway between Sapin point and Mushroul point. The church, a conspicuous day mark, stands on the point next north of Mushroul point, and Loggie's factory on the point between the church and Sapin point.

Fishing boats can run for the light on all bearings between west and north. The former bearing clears the south end of Sapin ledge ; the latter bearing clears a reef about 300 yards south of the light. Within this arc of 90° when within 100 yards of shore boats can round and run southwest behind the reef to good anchorage in 8 to 12 feet water.

This chimney is the tallest one in that vicinity and can scarcely be confused with the water-works or other chimneys near by.

The range line bears N. 4° 40′ E. true, or N. 10° 52′ E. magnetic. As the front and back range objects are but 7,700 yards apart, observations should not be made farther away from the Breakwater light than opposite the south entrance.

NEW BRUNSWICK.

(100) Northumberland strait—Richibucto harbour entrance—South beach—Range lights changed.

The channel through the bar across the entrance to Richibucto harbour having been shifted, by the winter gales and action of the ice, the bar range lights have been changed to suit the same.

The back light of this range has been removed to the tower used from 1895 to 1900 as the back range tower of the old bar range. (See notice to mariners No. 13 of 1895.)

The light is a fixed white light, elevated 44 feet above high water mark, and should be visible 12 miles in the line of range. The illuminating apparatus is catoptric.

The tower is of wood, with an open frame, surmounted by an enclosed square lantern, and is painted white. It is 43 feet high from the ground to the ventilator on the lantern. It stands on the south shore of the south beach, 2760 feet N. 54° W. from where the back mast of the bar range stood last year, and 325 feet S. 64° W. from the old tower with dwelling attached, used previous to 1900 for the front light of the bar range.

The front light is shown from a pressed glass lens lantern hoisted on a mast on the north side of the south beach :

Lat. N. 46° 42′ 41″
Long. W. 64 46 16

It is 130 feet back from the water's edge, and is distant 366 feet N. 81° E from the back range lighthouse. It is distant 100 feet, S. 39° E from the middle of the old front range lighthouse tower ; and bears S. 38° E., distant 5700 feet from the outer end of the breakwater on the north beach.

The light is a fixed white light, elevated 32 feet above high water mark, and should be visible 10 miles.

There is a depth of 10 feet over the bar in the best water.

The two masts from which the bar range lights were shown last year, half a mile eastward of the present bar range lights, have been removed ; the old tower used for the back light of the bar range previous to 1895 has been taken down ; but the old tower with dwelling attached, used up to 1900 for the front light of the bar range still stands, being utilized as a dwelling, though no light is shown from it.

The back light of the channel range has been moved and is now located 472 feet from the front light. In other respects the range is unchanged.

The two bar range lights in one lead to the black can buoy at the entrance to the channel ; they should be kept in one until the alignment of the channel range lights on the western end of the south beach come into one. These two lights should then be kept in one for $\frac{4}{5}$ mile until the first black spar buoy is reached. From this point up to the town the channel is tortuous and is marked by buoys. It is reported that the best water on the Jib Sheet, as the turn north of the channel range lights is locally called, is not more than $9\frac{1}{2}$ feet.

QUEBEC.

(88) River St. Lawrence—Ship channel between Montreal and Quebec—Lake St. Peter—Dredging—Warning.

A great many poles were placed in Lake St. Peter during the past winter to mark the limits of dredging to be done this season.

These poles mark the edges of the channel as it is to be improved, and not the banks of the present channel.

Pilots must, therefore, be careful not to use these poles as aids to navigation.

The edges of the existing channel are marked by the buoys maintained by this Department.

PRINCE EDWARD ISLAND.

(89) Gulf of St. Lawrence shore—New London harbour—Channel changed—Outer range light extinguished.

During the past winter heavy ice grounded off the entrance to New London harbour, on the north coast of Prince Edward Island; this caused the heavy current running out of the harbour to scour a new channel through the outer bar and to fill up the previously existing channel.

The channel over the bar, with 9½ feet at low water in it, is now close up to the rock reef at Simms' shore, farther to the north-west than that indicated by the range lights. There are now only 6 feet at low water on the bar in the line of range.

It has been found impossible to re-arrange the range lights, so as to indicate the existing crooked channel; the fixed white front light has, therefore, been temporarily extinguished. The fixed red back light is still shown, but is only intended to be used as a coast light.

The buoys at the entrance of the harbour have been changed in place to mark the new channel, and show the best water into the harbour during daylight.

(88) Fleuve St-Laurent—Chenal des navires entre Montréal et Québec—Lac St-Pierre—Dragage—Avertissement.

Un grand nombre de poteaux ont été placés dans le lac St. Pierre durant l'hiver dernier pour marquer les limites du dragage à faire cette saison.

Ces poteaux indiquent les bords du chenal tel qu'il doit être amélioré, et non les bords du chenal actuel.

En conséquence les pilotes doivent avoir soin de ne pas se servir de ces poteaux comme aides à la navigation.

Les bords du chenal actuel sont marqués par les bouées entretenues par ce ministère.

(95) Golfe Saint-Laurent—Cap des Rosiers—Changement dans le caractère du feu, complété.

Le changement projeté dans le feu du Cap des Rosiers, mentionné dans l'Avis aux Navigateurs No. 14 (23) de 1903, a été fait le 23 mai 1903.

Le feu est actuellement un feu blanc à occultations, qui brille durant 15 secondes, et est éclipsé durant 5 secondes alternativement. Le pouvoir lumineux est la vapeur de pétrole, brûlée dans des manteaux incandescents, et le nouveau feu est beaucoup plus blanc et plus puissant que l'ancien.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque chambre, et porter à l'enclos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

Greffier du Sénat.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées

ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

THOMAS B. FLINT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

THOMAS B. FLINT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.
